Please read this entire guide carefully

The following information is provided as general guidance to applicants to graduate entry medicine in Australia. However, all applicants should routinely check the websites of their chosen institutions and the GEMSAS website for admission updates.

How GEMSAS will contact you

Email will be the primary means of contact between GEMSAS and applicants and there may also be a need to send you letters by mail to your nominated postal address.

It is essential that **you provide a current email address** which will be valid from April 2019 to February 2020 and that you regularly check your emails, including your junk or spam folders. Expect emails from GEMSAS at any time during the process but especially around the time of interview offers. Some of the participating universities will only communicate with applicants via email.

Some email messages may not be accepted or may be flagged as spam by some email providers (e.g. Hotmail or Yahoo).

Applicants are advised to provide an email address other than their current university address (unless it will be available until February 2020), Hotmail or Yahoo email addresses.

Neither GEMSAS nor the universities will be held responsible for undeliverable or unread email communication.

Should you need to change your email or postal address, please do so in your GEMSAS user account.

Contact details for further enquiries

If you have further queries regarding the general application process, please contact GEMSAS: info@gemsas.edu.au. Please check the GEMSAS website and FAQs for details before submitting your query.

For detailed information on the GAMSAT Consortium graduate entry* courses, as well as university specific entry requirements, you should first check the Medicine Admissions Guide and the GEMSAS and school websites. Links to the school websites can be found at www.gemsas.edu.au/medical-schools.

All GPA queries should be addressed to GEMSAS. Please check the GEMSAS website GPA FAQs and try the on-line GPA calculator before submitting your query - <https://applygemsas.edu.au/gemsas/#/gpa-calc>.

School-specific enquiries should be directed to the schools directly. Contact information can be found on the website at www.gemsas.edu.au/medical-schools and on page 91 of this Guide.

Information about the graduate entry medicine admissions process for GAMSAT Consortium schools (GEMSAS) can be found on the website <http://www.gemsas.edu.au/gemsas-processes>.

* The University of Sydney, Monash University and Flinders University are not participating in GEMSAS. Applicants for places at these universities must apply directly to them. Applicants can visit their websites at <http://www.sydney.edu.au/>, <http://www.monash.edu/> and www.flinders.edu.au.

Admission policies

Offers

Successful applicants will be given a firm date by which to accept an offer of a place and offers not accepted according to the school's instructions by that date will lapse.

If an applicant declines an offer of a place, or allows their offer to lapse, they will not be considered for another place or receive another offer, in the 2020 intake.

Deferral

Deferral of a place is unlikely. However, some universities permit deferral, particularly to complete an Honours year. Please consult the schools' websites or discuss the possibility of being permitted to defer with the universities to which you wish to apply.

Exclusion

An applicant who has been excluded from any university must indicate this when they apply. The schools may contact applicants for further detail on receipt of the application data.

Admission and application irregularities

Applicants should be aware that the presentation of forged documents is a criminal offence in Australia and that universities may take appropriate action in such cases.

All tertiary study must be declared in the application. For the purpose of university admission, the withholding of information and the submission of incorrect or misleading information are deemed fraudulent. Action taken in such cases may include cancellation of an application for admission, withdrawal of an offer of admission, or cancellation of an enrolment.

Applicants who submit fraudulent documents, or otherwise seek to gain an advantage by fraudulent means, may be banned from future applications through GEMSAS.

Only your first submitted application will be processed, regardless of which application has been paid for.

Schools' policies

Each university may have its own additional admission policies (which may include policies on prior or current studies, enrolment irregularities and/or transfers). To confirm if there are additional policies, review each school's entry in this Guide and the websites of the schools to which you intend to apply.

Appeals process

If you wish to appeal any decision made in the processing of your application, you are most welcome to do so. Please provide a written explanation of why you disagree with the decision in question. You are welcome to provide supporting evidence. Address your appeal to the GAMSAT Selection Appeals Committee and email it to info@gemsas.edu.au. The Appeals Committee will consider your appeal and provide a written response within two weeks of receipt of your email. The Terms of Reference for the GAMSAT Selection Appeals Committee are available on request (please send your request to info@gemsas.edu.au). Note that this Committee can only hear appeals against decisions made in the processing of your application. Appeals against offer decisions made by participating schools must be made to the individual school concerned.

If you have been offered a place in another course or by an institution not participating in GEMSAS and you intend to accept that place, then please be considerate of fellow applicants and withdraw your application for all GAMSAT Consortium courses as soon as possible.

Application Process

Information in this section is generally common to all the schools, but is subject to the specific requirements outlined in the school entries and on the school websites.

GEMSAS and the schools make every effort to ensure the accuracy of information provided in this Admissions Guide at the time of publication. However, applicants must consult the GEMSAS and university websites for more detailed and specific information and for updates.

There are three components of the application process:

1. GAMSAT
2. The application
3. Documentation

❶ GAMSAT (www.gamsat.acer.edu.au)

All applicants for Commonwealth Supported Places and other domestic places at graduate entry schools (i.e. citizens/permanent residents of Australia and citizens of New Zealand) must have a current score on the Graduate Australian Medical School Admissions Test (GAMSAT).

GAMSAT results are valid for two years: i.e. if you sat the March test in 2019 you may use the results obtained to apply for a graduate entry course commencing in 2020 and/or 2021. If you sit the September test in 2019 you may use the results obtained to apply for a graduate entry course commencing in 2021 and/or 2022.

There is a very helpful table on page 23 of this guide and information that shows the validity of all the GAMSAT tests at <http://gamsat.acer.edu.au/results/currency-of-results>

Your GAMSAT results show a score for each of the three test Sections and an Overall Score. All GAMSAT Consortium medical schools (except The University of Melbourne and The University of Queensland) rank applicants using the Overall GAMSAT Score (with required minimum Section scores normally around 50). The University of Melbourne and The University of Queensland take an average of the three sections of the GAMSAT, rather than the Overall GAMSAT Score. The acceptable GAMSAT scores may be different for each of the universities, and may vary from year to year. When deciding whether or not to submit an application, you are advised to make sure that your GAMSAT scores fall within the acceptable ranges reported in the individual university entries in this Guide. You can evaluate your standing in relation to other candidates who sat GAMSAT in the same year as you did, by consulting the chart included with your Statement of Results. Please note that neither GEMSAS nor ACER staff have the authority to review individual GAMSAT transcripts or GAMSAT results or to offer advice on the likelihood of selection. GAMSAT candidates are responsible for determining their eligibility to apply.

Registration for the GAMSAT and application for admission to the graduate programs are separate processes.

❷ Application

Applications are made on-line through the ApplyGEMSAS.edu.au website. There is a link to this on the home page of the GEMSAS.edu.au website.

Applicants are selected for interview based on one or more of the following criteria:

- performance in GAMSAT;

- performance in a qualifying/key degree (as indicated by GPA);
- performance in a portfolio, special application or supplementary form or personal statement where required;
- performance in the CASPer test where required.

Deakin University and The University of Melbourne combine the first two criteria when ranking applicants for interview. The GPA is weighted. The University of Melbourne uses an unweighted GAMSAT.

The Australian National University and The University of Western Australia combine both standardised GAMSAT and standardised GPA when ranking applicants for interview.

Griffith University ranks applicants for interview based on selections rank derived from a 50/50 combination of an unweighted GPA (converted to a percentage) and the overall GAMSAT score.

The University of Queensland uses an unweighted GPA of 5.0/7.0 as a qualifying hurdle, then ranks applicants for interview by an unweighted average GAMSAT score, only using the GPA as a tie-breaker where necessary.

The University of Wollongong uses performance in the CASPer test as a hurdle, then ranks applicants on combined GPA, GAMSAT results and portfolio/written submission.

The University of Notre Dame, Australia (Fremantle) and The University of Notre Dame, Australia (Sydney) rank applicants on combined GPA, GAMSAT results and portfolio/written submission.

Macquarie University uses the personal statement as a hurdle, then ranks applicants based on a selection rank derived from a 50/50 combination of weighted GPA and overall GAMSAT score.

③ Supporting documentation

Supporting documentation will be required if:

- You studied at a non-ARTS¹ university at any time.
- You have an Australian rural background (see page 21)
- You need to supply supporting documentation required by individual schools

When you complete your Application Form, you will be presented with relevant coversheets which you must print and attach as directed to the documents you are submitting. You can view the coversheets that you will be required to submit with supporting documentation, on the Coversheets page in the application, but will only be able to access them once you have submitted and paid for your application. Failure to include all requested documents may disadvantage you. Please send **only** those documents that have been specifically requested. Note that there are two different addresses to which documents are to be sent. Please ensure you follow the instructions on the coversheets to ensure your documents are sent to the correct address.

1. If any of your tertiary study is from a non-ARTS university please remember to submit your **original transcript(s)** - posted **no later than 5:00pm your time on Friday 7th June 2019**. This can include exchange study and study for which you may have received credit towards another degree.

Post documents to: GEMSAS Operations
 PO Box 2025
 South Melbourne VIC 3205

Any qualification undertaken in a language other than English must be documented by the original transcript, accompanied by an officially translated original (by a NAATI translator), in English. The NAATI Translation cannot be a photocopy, PDF printout and it must be stamped and signed on every page by an accredited NAATI translator.

¹ See Appendix A

All applicants who intend to post documentation, please use a postal service that will ensure that we receive your documentation within 5-7 days, e.g. via Airmail or a courier service.

Extra documentation requirements for study in China and India:

China:

- Original Transcript in both Chinese and English Language
- Original Degree Certificate that is "Awarded according to the Regulations Concerning Academic Degrees in the People's Republic of China (中华人民共和国学位条例)" - both in English and Chinese Language
- If you have completed a Masters degree we will need your original Graduation Certificate that shows you completed/defended your Thesis - both in English and Chinese Language. In addition to the above.

*English Translations must either be issued from your school or NAATI Translations.

*Please note if you do not provide **all of the above** it may delay the assessment of your application.

India:

- Unconsolidated Marksheets including any backlogs - Marksheets must be issued from the awarding University NOT the college.
- Official Completion Certificate (in addition for the marksheets/transcripts)

*Please note if you do not provide **all of the above** it may delay the assessment of your application.

2. Applicants to the following universities and for the streams or sub-quotas listed must send their documents posted **no later than 5:00pm your time on Friday 7th June 2019**, to the address indicated on the website or to:

GEMSAS Processing
 PO Box 522
 Ferny Hills DC
 Queensland 4055

School	Stream	Documents required
Australian National University	Indigenous students	<p>The ANU Medical School encourages applications from people of Aboriginal and/or Torres Strait Islander descent and makes places available each year to suitable applicants.</p> <p>Applicants from Aboriginal and/or Torres Strait Islander descent may apply directly to ANU by completing the Online Application Form. Applicants are also required to send the below documentation to admissions.medicalschool@anu.edu.au.</p> <ul style="list-style-type: none"> • Official Bachelor Degree transcript • Official transcript/s for any post graduate degree/s (if applicable) • Official GAMSAT result • Medical School Aboriginal or Torres Strait Islander Declaration Form <p>Applications will open 30 April 2019 and close 30 June 2019. If you are from a rural background please indicate this in your online application and provide supporting documentation.</p> <p>The Admissions procedure for Aboriginal and/or Torres Strait Islander applicants will follow similar procedures to that of the domestic GEMSAS process. Applicants will be assessed on their GPA and GAMSAT and may be offered an interview. Upon completion of Interviews, successful applicants will be offered a place.</p>
	Conjoint MChD/PhD	<p>The ANU Medical School offers the opportunity for students to undertake a conjoint Medicinæ ac Chirurgiæ Doctoranda / Doctor of Philosophy (MChD/PhD).</p> <p>This program caters for students who have a desire to enter the medical profession but also possess a keen interest in cutting-edge research. Applicants wishing to enter the conjoint program must have relevant research experience.</p> <p>Applications and selection for the conjoint program is completed during the first year of the Medicine Program, therefore no application is required prior to starting the program.</p>
Deakin University		<p><i>If you applied for any of the following Deakin adjustments (bonuses) in 2017 or 2018, please select the “2017/2018 applied for adjustment (bonus)” tick box in the application and we will not require any further documentation:</i></p> <p><i>Financial disadvantage, Clinical experience, Work experience, Deakin Geelong rural adjustment (bonus).</i></p> <p><i>NB. If you applied and were found ineligible or did not provide documentation in 2017 or 2018 (you would have been emailed and informed of this), please DO NOT tick the 2017/2018 box but select yes in the application if you are eligible for the adjustment (bonus) and provide the documentation required.</i></p>

	<p><i>If you applied for the Work Experience adjustment (bonus) in 2017 or 2018, before ticking yes to the “2017/2018 applied for adjustment (bonus)” tick box, please note there has been a change to the Prior Clinical Experience in a health discipline adjustment (bonus), which you may now be eligible for instead. If you are eligible for the Prior Clinical Experience adjustment (bonus) select yes and provide the required documentation.</i></p> <p><i>If you apply and are found ineligible for any of the 2019 Deakin adjustments (bonuses), you will be emailed and informed of this.</i></p>
Financial Disadvantage	<p>Applicants who can demonstrate financial disadvantage, which may have impacted on academic performance during their undergraduate degree, may receive a 2% adjustment (bonus) of the combined GPA and GAMSAT score.</p> <p>The Deakin School of Medicine recognises the following benefits as providing eligibility for the financial disadvantage adjustment (bonus):-</p> <ul style="list-style-type: none"> • Centrelink income payments - The School of Medicine recognises the following Centrelink benefits: ABSTUDY, AUSTUDY, Parent Payment (Partnered or Single), Youth Allowance, Disability Pension, Veterans Means Assessed Pension. • Department of Veterans’ Affairs income payments. • Other Australian Federal or State Government income payments of similar amounts may be considered. • StudyLink benefits for applicants from New Zealand, excluding the StudyLink loan <p>Please ensure supporting documentation clearly shows the approved benefit and supports a minimum of 12 months.</p> <p>Supporting documentation includes (approved benefit must clearly be listed):</p> <ul style="list-style-type: none"> • A letter/statement from Centrelink or StudyLink (each month must be clearly visible if providing Centrelink documents). • A PAYG Centrelink Payment Summary (showing a minimum payment period of 52 weeks). • Tax returns (if the approved benefit and time period are clearly shown). • Bank statements (only if the approved benefit is detailed). • Any other document clearly supporting the adjustment (bonus) criteria. <p>Please note:</p> <ul style="list-style-type: none"> • Documents with "Employment or Youth and Student Assistance service" or "NSS" detailed are not sufficient as they do not clearly state the approved benefit. • Applicants must have been in receipt of the approved benefit for at least 12 months, at the time of application (not the end of 2019 or at the time of course commencement, as there is no guarantee that the applicant will receive the benefit in the future). • Insufficient supporting documentation includes: documents provided with "Employment or Youth and Student Assistance service" listed (the approved benefit must be detailed); documents showing less than 52 weeks payment period; providing one document at the beginning of the time period and one at the end is not sufficient, (each month must clearly be shown). <p>See school website for details: https://www.deakin.edu.au/doctor-medicine</p>

<p>Prior Clinical Experience in a Health Discipline</p>	<p>Applicants who have completed the equivalent of one year of full-time clinical practice (i.e. minimum of 36 hours per week) as an AHPRA registered health professional, or in speech pathology or dietetics, may receive a 4% adjustment (bonus) of the combined GPA and GAMSAT score.</p> <p>Applicants with international clinical practice and registration (that aligns with the professions listed on the AHPRA website (https://www.ahpra.gov.au/Registration/Registers-of-Practitioners/Professions-and-Divisions.aspx), including speech pathology and dietetics, may also be eligible to receive this adjustment (bonus).</p> <p>Please provide documentation that will show:</p> <ul style="list-style-type: none"> • 12 months of full-time equivalent clinical experience (e.g. letter of support from employer / group certificate), <p>AND</p> <ul style="list-style-type: none"> • Evidence of registered health professional status for the relevant clinical experience year(s) (e.g. proof of registration / print out from AHPRA website). <p>Supporting documentation includes:</p> <ul style="list-style-type: none"> • Supporting letters from the applicant’s employer(s) stating length of employment in the clinical field. The letters must be dated and signed. • Payslips, ensure the payslips cover one year full-time clinical experience and includes both the applicant name and the employers’ name. • Group Certificate/PAYG Summary, ensure the group certificate includes both the applicant name and the employers’ name. • Registration documentation, ensure the documentation covers the clinical year(s) that are being claimed. <p>Please note:</p> <ul style="list-style-type: none"> • Periods of provisional registration, or as an intern, are excluded. • Offers of employment and contracts are not acceptable documentation as they do not prove actual clinical experience, or that the contract was completed. • Tax Return application. Please note a notice of tax assessment is not acceptable as it does not state the occupation. • Future registration or employment cannot be considered. Applicants must have completed the one year (12 months), at the time of application. Adjustments (bonuses) can only be awarded to applicants who will have completed the 1 year (12 months) at the time of application. • If you receive the Prior Clinical Experience adjustment (bonus) you are not eligible for the Work Experience adjustment (bonus). <p>See school website for details: https://www.deakin.edu.au/doctor-medicine</p>
<p>Work Experience</p>	<p>Applicants who have worked full time (i.e. minimum of 36 hours per week) for 2 years cumulatively over a 4 year period, or 2 years consecutively may receive a 2% adjustment (bonus) of the combined GPA and GAMSAT score.</p> <p>Supporting documentation includes:</p> <ul style="list-style-type: none"> • Supporting letters from the applicant’s employer(s) stating the length of employment and weekly hours worked. The letters must be dated and signed. • Group Certificate/PAYG Summary, ensure the group certificate includes both the applicant name and the employers’ name. • Payslips, ensure the payslips cover the two years full-time equivalent work experience over a maximum 4 years; and includes both the applicant name and the employers’ name. • Tax Return application / Notice of Tax Assessment. • Any other documentation supporting the adjustment (bonus) criteria.

	<p>Please note:</p> <ul style="list-style-type: none"> • Applicants can either receive the Work Experience adjustment (bonus) (2%) or the Prior Clinical Work adjustment (bonus) (4%). They cannot claim both adjustments (bonuses). The Work Experience adjustment (bonus) applies to any paid work, non-clinical work or clinical work that is not listed in the defined list of disciplines. • Adjustments (bonuses) can only be awarded to those applicants who have completed 2 years cumulatively over a 4 year period, or 2 years consecutively at the time of application (not the end of 2019). • Offers of employment and contracts are not acceptable documentation as they do not prove actual work experience, or that the contract was completed. <p>See school website for details: https://www.deakin.edu.au/doctor-medicine</p>
<p>Deakin Study adjustment (bonus)</p>	<p>Eligible applicants may receive a 4% adjustment (bonus) of the combined GPA and GAMSAT score.</p> <p>Applicants are eligible for this adjustment (bonus) if, at the time of application, they:-</p> <ul style="list-style-type: none"> • Have completed and graduated with an undergraduate degree from Deakin University with a minimum of two full-time equivalent years of study (2FTE) Or • Will be completing an undergraduate degree from Deakin University and have completed at least two years full-time equivalent years of study (2FTE). <p>Please note:</p> <ul style="list-style-type: none"> • Credit for Prior Learning will not count as having met the 2 years' FTE completion requirement. <p>This adjustment (bonus) will be assessed using study results automatically retrieved via ARTS (i.e. no extra documentation will be required).</p> <p>See school website for details: https://www.deakin.edu.au/doctor-medicine</p>
<p>Aboriginal and Torres Strait Islander Applicants</p>	<p>Aboriginal and Torres Strait Islander Applicants can apply through either GEMSAS or The Indigenous Entry Stream (IES) through Deakin University.</p> <p>See school website for details: https://www.deakin.edu.au/doctor-medicine</p>

3. Supporting documents for The University of Melbourne's Graduate Access Melbourne Scheme: Applicants must submit their documents **DIRECTLY** to The University of Melbourne via the relevant online webform **no later than 5:00pm AEST on Friday 31st May 2019.**

School	Stream	Documents required
The University of Melbourne	Aboriginal and/or Torres Strait Islander applicants	<p>Applicants of Aboriginal and/or Torres Strait Islander descent are given priority access to Medicine at the University of Melbourne under the Indigenous MD Student Entry Pathway.</p> <p>Eligible Indigenous applicants who wish to apply to the University of Melbourne under the Pathway will be required to submit an application directly via the University's formstack: https://theuniversityofmelbourne.formstack.com/forms/2020_ati</p> <p>Closing date for direct applications: 5:00pm AEST on Friday 31st May 2019.</p> <p>Please note that this direct application form is for Indigenous applicants only. Applicants who are not of Aboriginal and/or Torres Strait Islander descent should apply via GEMSAS.</p> <p>Prospective Indigenous applicants are strongly encouraged to make contact with the University of Melbourne (via email to mdhs-indigenous-admissions@unimelb.edu.au) to receive advice about the direct application process and our Indigenous MD Student Entry Pathway.</p> <p>Indigenous applicants are not required to apply via GEMSAS nor sit the GAMSAT if the University of Melbourne is their only preference. Indigenous applicants wishing to be considered by other medical schools (in addition to the University of Melbourne) should consult the relevant entries in this Guide for application details.</p>
	Graduate Access Melbourne (GAM) eligible applicants only	<p>Only applicants who have experienced disadvantage during their undergraduate degree, or who are members of specific recognised groups, as listed below, are eligible to apply for Graduate Access Melbourne (GAM).</p> <ul style="list-style-type: none"> • Applicants with previous status as a refugee, or holders of a Humanitarian visa • Applicants who experienced any of the following, with an impact on their undergraduate studies: disadvantaged socio-economic circumstances; disability or a chronic medical condition; or personal difficulties. <p>The online GAM submission form is available at: https://theuniversityofmelbourne.formstack.com/forms/2020_graduate_access_melbourne</p> <p>Information about the GAM scheme is available at: https://study.unimelb.edu.au/how-to-apply/special-entry-access-schemes/access-melbourne-graduate</p> <p>Only eligible applicants should apply.</p> <p>Closing date for GAM submissions: 5:00pm AEST on Friday 31st May 2019.</p>
	All applicants (Prerequisite subject completion)	<p>Applicants who have completed approved prerequisite subjects do not need to submit subject descriptions. Lists of approved prerequisite subjects can be found in the GEMSAS online application form and at http://mdhs-study.unimelb.edu.au/prerequisites</p> <p>For applicants whose subjects have not been assessed for prerequisite equivalence:</p> <p>Applicants must submit documentation through the web form http://mdhs-study.unimelb.edu.au/prerequisites preferably by Friday 3rd May 2019 for assessment of prerequisite equivalency.</p> <p>Applicants who submit complete documentation by Friday 3rd May 2019 will be advised of the subject equivalence before the course application closing date. Submissions received after this date will take three weeks to be processed.</p>

Applicants who have not submitted documentation for assessment by the end of May OR have not demonstrated equivalence as part of their GEMSAS application (e.g. evidence of relevant completed subjects) will be deemed to have failed the prerequisite requirements and will not be eligible for selection.

If you are going to enrol in one or more subjects from the list of approved prerequisite subjects during semester two in the year of application, you are still eligible to list the University of Melbourne as one of your preferences. However, you must enrol in all prerequisite subjects by the end of July in the year of application, and you must list the subjects you intend to enrol into when you complete the **Education section** of the GEMSAS online Application Form. GEMSAS will be able to retrieve your enrolment records through Automated Results Transfer System (if your institution/s use ARTS) at that time, but can only do so if you have listed the prerequisite subjects in your GEMSAS application (or alternately, have advised GEMSAS via email to info@gemsas.edu.au by 31st July).

4. All applicants who have completed the rural background questions in the Application Form must send their supporting documentation to:

GEMSAS Processing
 PO Box 522
 Ferny Hills DC QLD 4055

Note that the supporting documentation must **be posted no later than 5:00pm your time on Friday 14th June 2019**. Please ensure the Rural Background cover sheet, which is generated when you have paid for your application, is attached. This is in addition to any university-specific documents requested in this section, pages 7-15, and listed below.

School	Stream	Documents required
Deakin University	Rurality / City of Greater Geelong adjustment (bonus)	<p>This adjustment (bonus) is given to applicants who have lived in the City of Greater Geelong or a Rural/Regional area for at least 5 years consecutively or 10 years cumulatively. Complete the questions in the application form and submit the required supporting documentation.</p> <ul style="list-style-type: none"> • Residence in ASGC-RA 2 or the City of Greater Geelong: an adjustment (bonus) of 4% of the combined GPA and GAMSAT score. • Residence in ASGC-RA 3-5: an adjustment (bonus) of 8% of the combined GPA and GAMSAT score. <p>Note:</p> <p>Some suburbs in the Geelong region are deemed RA2 (please check the DoctorConnect site, using the Australian Bureau of Statistics remoteness classification (ASGS Remoteness Area 2016) http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/locator).</p> <p>If deemed RA2, please apply for both the Rural and the Geelong adjustment (bonus). GEMSAS will assess your application and deem the applicable adjustment (bonus). Please note that only one adjustment (bonus) will be awarded.</p> <p>See school website for details: https://www.deakin.edu.au/doctor-medicine</p>

Please refer to the 'Rurality' section on page 21 of this guide.

If you do not provide any required additional documentation, you will not be eligible for consideration for the category/sub-quota concerned.

Bachelor degree

All applicants must have completed, or be in the final year, of a Bachelor or Honours degree. Undergraduate Australian degrees must be from a Commonwealth-accredited institution (see <http://www.teqsa.gov.au/national-register>). (NB. Wollongong require that qualifying/key degrees are from a University). Overseas degrees must be recognised by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR) as equivalent to an Australian Bachelor degree. Your qualifications will be assessed for equivalency as part of your application process.

Please do not contact the Australian Department of Education and Training Qualifications Recognition Policy Unit for assessment of your degree.

For those in the final year of study, satisfactory completion of the degree in 2019 will be a condition of entry. Note that if you cannot complete and provide evidence of completion of your degree in the 2019 calendar year, any offer you have received that is conditional upon completion of your current degree may be withdrawn.

Applicants enrolled in a two-year degree, a three or four year embedded degree or one-year conversion degree, or those who have completed a higher degree without a prior Bachelor degree should consult their preferred school/s to ascertain eligibility. Note that not all schools accept such degrees. Please see individual school entries in this Guide.

Grade Point Average (GPA)

GEMSAS will calculate a Grade Point Average (GPA) from electronic copies of academic transcripts (from ARTS institutions) or paper transcripts. Original hard-copy transcripts will be needed if you have completed your degree or any part of your qualifying/key degree at an overseas university or any university not included in the list of ARTS institutions in Appendix A.

Applicants may wish to calculate their GPA according to the instructions on the GEMSAS website (www.gemsas.edu.au/gpa-calculations). A GPA calculator is available on the application page (<https://applygemsas.edu.au/gemsas/#/home>) for use. Please note that any GPA calculated by an applicant will be an estimated GPA and used only for the information of the applicant.

No preference is given to graduates with particular Bachelor degrees. The GAMSAT Consortium encourages individuals from diverse educational backgrounds who will bring to the profession a variety of talents and interests.

Exceptions:

Applicants to Medicine at The University of Melbourne must have successfully completed approved prerequisite second year level studies in anatomy, physiology and biochemistry.

Applicants to Medicine at Macquarie University must have successfully completed one approved tertiary unit of Human Anatomy and one approved tertiary unit of Human Physiology.

The GPA indicates the level of performance in the qualifying/key degree. There is no differentiation of GPA between institutions or courses. It should be emphasised that a science major is not a prerequisite, and that academic excellence in other areas, such as the humanities and social sciences, is encouraged and recognised.

Interviews

The interview is designed to assess qualities considered by the schools to be associated with success in both medical school and later practice, and is conducted by trained interviewers. Academic performance is not discussed at the interview. No domestic applicant will receive more than one interview offer from a medical school participating in GEMSAS in the 2019 admissions round, for entry in 2020.

An exception is for applicants who qualify for the Guaranteed Entry Pathway or the Indigenous MD Student Entry Pathway at the University of Melbourne. Guaranteed Entry Pathway applicants will be considered by the University of Melbourne separately to the GEMSAS process and must apply in accordance with instructions available at <https://study.unimelb.edu.au/find/courses/graduate/doctor-of-medicine/how-to-apply/#apply-now>. Eligible Indigenous MD Student Entry Pathway applicants will also be considered by the University of Melbourne separately, and can apply directly to the University via https://theuniversityofmelbourne.formstack.com/forms/2020_atst. All other shortlisted, eligible applicants will be interviewed. Note that if Guaranteed Entry Full Fee eligible applicants wish to be considered for CSP and bonded places at Melbourne, they must apply via GEMSAS. If Guaranteed Entry Full Fee or Indigenous MD Student Entry Pathway eligible applicants wish to be considered by the other medical schools, they are advised to consult the relevant entries in this Guide for application details.

Selected applicants receive an invitation to interview by letter or email. This invitation must be presented on arrival at the medical school, together with a valid passport or current photo-bearing driver's licence for identification purposes.

Some schools require that you supply a passport photograph prior to interview. If this applies to you, you will be notified when interview invitations are issued, with instructions on how and when to submit your digital photo.

Applicants must meet all expenses associated with attending the interview.

Applicants unsuccessful in receiving an interview at any of the medical schools they applied to will be notified by email by the GEMSAS team. Applicants who were not interviewed will not participate in further processing.

If you are eligible to be made an offer at a University that did not interview you, the University reserves the right to call you for an informal conversation prior to offers being made. This is to ensure that the applicant is aware of specific course and University requirements. This conversation does not constitute an interview or indicate an offer of a place.

Offers

Selection into graduate entry medicine is based on up to four criteria:

- performance in GAMSAT;
- performance as indicated by GPA. Please see school entries for details about qualifying/key degrees and GPA calculations;
- performance in interview;
- performance in a portfolio, special application or supplementary form or personal statement.

The way in which each university combines these criteria when making their final offers varies. For more information refer to the individual university entries which begin on page 42 of this Guide. Alternatively, you can consult each university's website for detailed information. Links are available from www.gemsas.edu.au.

A successful application may lead to an offer of one of a range of places, including bonded and full-fee places. When you apply you will be asked (for each school on your preference list), to choose (and for some schools, rank) the types of places you will be prepared to accept. Selection is based on ranked lists and quotas. The quota (i.e. number of places) available for each offer type is restricted. To maximise your chances of receiving an offer at the schools of your choice, consider listing all types of places. If you omit (for instance) the Bonded Medical Places (BMP) offer type and you are ranked to get a BMP offer, it will not be made and you'll drop down to your next preferred school for consideration. Please read carefully all the information about bonded places on the DoH website at www.health.gov.au/bmpscheme.

When allocations are being made, schools will allocate quotas for each offer type. The allocation will be made using that school's ranked list in order: CSP, BMP and FEE (if applicable). Some schools will ask you to rank all offer types and some will just want you to indicate which offer types you are prepared to accept if offered. To list only one offer type means you limit the available places that can be offered to you.

Individual School Details:

- **For The University of Queensland** you may specify the types of places you wish to be considered for, however no consideration is given to preferred offer type when offers are made. Offers will be made in the order of CSP first and BMP second.
- **For The University of Melbourne** you may specify the types of places you wish to be considered for. You will not be considered for a type of place that you have not listed, however no consideration is given to the order of preferred offer types listed when offers are made. Offers will be made in the following order: CSP, BMP, and FEE, with the most highly ranked applicants being offered CSP places and so on down the merit order until all vacancies are filled. It is important that applicants who are not in a position to pay for a full fee (FEE) paying place DO NOT list this type of place in their application for the University of Melbourne. Once an applicant is offered a FEE place it is not possible to swap into a CSP or BMP place.
- **For The University of Western Australia** you may specify the types of places you wish to be considered for, however no consideration is given to preferred offer type when offers are made. Offers will be made in the following order: CSP then BMP.
- **ANU** will allocate place types based on the ranking of the applicant and their preferences.
- **For the University of Wollongong** you must specify the types of places you wish to be considered for in your preferred order. You must also note your preference for the Wollongong campus or the Shoalhaven campus (or indicate no preference). Allocations will be according to applicant rank and preference.
- **For Deakin University** you may specify the types of places you wish to be considered for. You will not be considered for a type of place that you have not listed. Offers will be made in the following order: CSP and BMP, with the most highly ranked applicants being offered CSP places and so on down the merit order until all vacancies are filled.
- **For Griffith University** you must specify the types of places you wish to be considered for in your preferred order. You must also note your preference (1 and 2 or no preference) for the Gold Coast campus and the Sunshine Coast Health Institute teaching location. Allocations will be according to applicant rank and preferences.
- **For The University of Notre Dame Australia**, Fremantle and Sydney, applicants must specify the types of places they wish to be considered for. Applicants will not be considered for a place they have not selected. Offers will be made in the following order: CSP first and BMP second for Fremantle campus. CSP first, BMP second and Full-Fee third for Sydney campus.
- **For Macquarie University** all places are Full-Fee paying and will be allocated based on the ranking of the applicant and their preferences.

-
- If you decline an offer of a place, you will not be considered for another place or receive another offer.
 - If you have been offered a place in another course or by an institution not participating in GEMSAS and you intend to accept that place, then please be considerate of fellow applicants and withdraw your application for all GAMSAT Consortium courses as soon as possible.
-

Quotas

Each university has a quota for the year's intake of domestic students (Australian citizens/permanent residents and New Zealand citizens). This includes Commonwealth supported non-bonded places (CSP) and Commonwealth supported bonded places (BMP) as well as Australian full fee places (Melbourne and Notre Dame only).

Most schools are obliged to fill at least 25% of all Commonwealth Supported Places with students from a rural background. Rural background sub-quotas can be filled from a combination of offer types and are not restricted to only bonded places.

Quotas for 2020 are expected to be:

School places	CSP	BMP CSP	Other	Total
Australian National University	64	26	Up to 20 international	110
Deakin University	93	37	Up to 15 international	145
Griffith University	100	40	Up to 30 international 60 B.Medical Science Pathway (28.5% are BMP places)	230
Macquarie University	N/A	N/A	40 full-fee 20 international	60
The University of Melbourne	169	68	Up to 50 domestic full-fee Up to 45 international full-fee Guaranteed Entry (no quota) Indigenous MD Student Entry Pathway (no quota)	332
The University of Notre Dame, Australia (Fremantle)	71	29		100
The University of Notre Dame, Australia (Sydney)	43	17	Up to 60 domestic full-fee	120
The University of Queensland	100	40	210 international 140 provisional pathway (of which 40 are BMP) ATSI alternative entry (no set quota)	490
The University of Western Australia	46	17	10 international	73
The University of Wollongong	50	17	17 international	84

*These quotas are indicative only and are subject to change.

BMP – Bonded Medical Places Scheme

The Bonded Medical Places (BMP) scheme is a Federal Government initiative which aims to provide more Australian trained doctors where there are workplace shortages – particularly (but not limited to) rural and remote Australia.

Information about this scheme can be found on the Australian Government Department of Health & Ageing website (www.health.gov.au/bmpscheme).

The BMP Scheme is open to all first year medical students who are Australian citizens, permanent residents of Australia and also New Zealand citizens who held a New Zealand Special Category Visa on or before 26 February 2001.

Applicants in special categories

Applicants in the following categories should refer to the medical school websites, the entry requirements section (from page 42) and the tables on pages 7 - 15:

- Combined Degree applicants;
- Indigenous Australian applicants;
- Rural resident applicants;
- Other special sub-quota applicants.

Rurality

Please note the DoctorConnect classification map has been updated since last year (2018), the ASGS remoteness area 2016 map is the classification map we will use to assess your rurality.

If you have lived in an Australian rural area, ASGS-RA 2 to 5, for **5 years consecutively or 10 years cumulatively**, you may be eligible for consideration in rural schemes and sub-quotas. You will need to complete the Rurality question in the Application Form and submit supporting documentation. For information about rural sub quotas or bonus points please view the schools' entry requirements pages.

The ASGS-RA is a geographical classification tool developed by the Australian Bureau of Statistics. The purpose of the RA structure is to classify data from census Collection Districts (CDs) into broad geographical categories, called Remoteness Areas (RAs). The RA categories are defined in terms of 'remoteness' – the physical distance of a location from the nearest urban centre based on population size. Under this classification system remoteness is updated each census. **The most recent classification, based on 2016 census data, is the one by which we will assess your rurality.**

The Graduate Entry Medical School Admissions System (GEMSAS) will use these guidelines in the processing of Rurality Claims.

The ASGS-RA system is made up of 5 categories:

- RA-1 Major city
- RA-2 Inner regional
- RA-3 Outer regional
- RA-4 Remote
- RA-5 Very remote

If you have lived in an ASGS-RA 2 to 5 area for **5 years consecutively or 10 years cumulatively** and wish to be considered for rural schemes and sub-quotas, you will need to provide documentary evidence. Note that the rural residence must have been your primary residence. You can check your ASGS-RA status at (select **ASGS 2016 classification map**): <http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/locator>

Acceptable supporting documents include:

- Supporting letters from a GP/dentist, bank, school, university or workplace (signed originals on letterhead). Supporting letters must be dated, include your rural residential address and your rural address history, and the dates that you resided at the address.
- Documents to prove residence such as invoices for telephone, utilities, or bank statements showing your (or your family's) address, can be provided but must be accompanied with:
a statutory declaration from a parent (if you were under 18 at the time and the bills are in the family name);
OR
a statutory declaration from you, the applicant (if you were over 18 at the time, as the bills must be in your name).

The letters of support and statutory declarations must include the rural address history and time periods. An online printed invoice will only be acceptable if dated the year it was issued. E.g. a bank statement must be dated the year you are supporting (i.e. dated 19 July 2015 if you are supporting the year 2015, it cannot be dated 2019 if you are supporting the year 2015).

Please note:

- School reports are not sufficient documentation as we need to clearly see your rural residential address
- Documents can be copies and don't need to be certified. The exception to this is letters that have been written specifically in support of your claim. These must be original letters.
- Please ensure your documentation supports 5 years consecutively or 10 years cumulatively of rural living and includes the cover sheet you will print off when you submit your on-line application.
- You cannot claim time in the future as part of the 5 or 10 years, as there is no way to establish proof that you will continue to reside in a rural setting.

- Time spent at a holiday home (second residence) or during school holidays in a rural setting, will not be considered.
- If selecting 5 years consecutive then the supporting documentation must support 5 full years and must be consecutive.
- If selecting 10 years cumulative then the supporting documentation must support 10 full years and documentation will be needed for each time period, one document for the start of each time period and one for the end of each time period.
- All rural living should be included in the online application but supporting documentation only needs to support 5 years consecutive or 10 years cumulative rural living.

Please send your supporting documentation and the coversheet to:

GEMSAS Processing
PO Box 522
Ferny Hills DC
Queensland 4055

Note that the supporting documentation must be posted **no later than 5pm your time on Friday 14th June 2019.**

If you apply for the Rural background and are found ineligible, you will be emailed and informed of this.

If you wish for your Rural documentation to be returned, please include an appropriate sized **reply paid envelope** and a note requesting it to be returned.

FAQs about the application process

What happens to my application?

GEMSAS is a computerised matching system which calculates GPAs and bonuses, assesses applications for eligibility, and uses an algorithm to rank and allocate eligible applicants to their highest preferred medical school. For more details about the matching algorithm, please refer to www.gemsas.edu.au/gemsas-processes.

Applications will be assessed according to the selection rules of each preferred school. GEMSAS will assess the eligibility and competitiveness of all applicants for their first preference medical school. If the applicant is not eligible or not ranked highly enough he or she will be assessed for the second-preference school and so on until the applicant has either been allocated an interview at a preferred medical school or all preferences have been exhausted.

Applications will be assessed again after interviews according to the selection rules of each preferred school. Interview scores will be standardised and used by all participating schools. GEMSAS will assess the competitiveness of all interviewed applicants for their first-preference medical school. If the applicant is not ranked highly enough he or she will be assessed for the second-preference school and so on until the applicant has either been offered a place at a preferred medical school or all preferences have been exhausted.

You cannot be considered for an offer at a school which is a higher preference than the school at which you were interviewed. They have already decided you don't meet their minimum criteria or you were not ranked highly enough to get an interview offer and that can't change in the subsequent offer round despite how well you do at interview.

Once an application is submitted NO FURTHER changes can be made.

How do I choose between two valid GAMSAT results?

You will have two valid GAMSAT results if you sat two separate GAMSAT tests - for example the GAMSAT² in 2018 and 2019. You are advised to compare both results against the acceptable scores for each university and then select the result you wish the universities to consider.

Simply record in the Application Form the appropriate candidate identification number, month and year of sitting for the test you wish to use for selection. This will be the only GAMSAT result that will be provided to GEMSAS.

It is not possible to mix individual Section scores from different years or to use different tests for different universities.

Will the March or September GAMSAT scores be acceptable for entry to GAMSAT Consortium medical schools?

The GAMSAT is held in March and September, however results from the September sitting in the year of GAMSAT application cannot be used for that intake - it may only be used for designated future intakes:

Which GAMSAT results can be used?		
GAMSAT session	2020 Intake	2021 intake
March 2017	x	x
September 2017	✓	x
March 2018	✓	x
September 2018	✓	✓
March 2019	✓	✓
September 2019	x	✓
March 2020	-	✓
September 2020	-	x

² See page 6 for more information about GAMSAT test validity.

Helpful information can be found on the GAMSAT website that shows the validity of all the GAMSAT tests. <http://gamsat.acer.edu.au/results/currency-of-results>.

Which school should I apply to?

There are ten Medical Schools in the GAMSAT Consortium. Domestic applicants may nominate up to six preferences. Please take into consideration the special character of each medical school and choose as preferences those schools whose philosophies, location and special character best matches your requirements.

There are significant differences in entry requirements between the schools. You might find that you have a much better chance of gaining admission to one school over another. Please ensure you make your selections with care. Once preferences are entered and your application submitted, you will not be able to change them. Subsequent transfers between Schools are unlikely to be approved.

If you are not prepared to undertake the course at a particular university you should not list it.

You are advised to put only medical schools and types of places that you are prepared to accept. You are strongly advised to obtain detailed information from the schools' websites to ensure you are fully informed on both the admissions criteria and the structure of the individual programs. If you are offered a place and you decline it, or if you allow your offer to lapse, then your application will be withdrawn from further processing and you will NOT receive another offer in the current offer period. There is no requirement to list the full six preferences available to you.

I want to know about indicating the types of places I would be prepared to accept and ranking them in order?

When you apply you will be asked for each school on your preference list, to choose (and for some schools, rank) the types of places you will be **prepared to accept**. Selection is based on ranked lists and quotas. The quota (i.e. number of places) available for each offer type is restricted. To maximise your chances of receiving an offer at the schools of your choice, list all types of places. If you omit (for instance) the BMP offer type and you are ranked to get a BMP offer, the offer will not be made and you'll drop down to your next preferred school for consideration. Please read carefully all the information about bonded places on the DoH website at www.health.gov.au/bmpscheme.

When allocations are being made, schools will allocate quotas for each offer type. The allocation will be made using that school's ranked list in order: CSP, BMP and FEE (if applicable). Some schools will ask you to rank all offer types and some will just want you to indicate which offer types you are prepared to accept if offered. To list only one offer type means you limit the available places that can be offered to you. Applicants accepting a FEE offer at the University of Melbourne will be required to submit an *MD Student Financial Plan*.

Individual School Details:

- **For The University of Queensland** you may specify the types of places you wish to be considered for, however no consideration is given to preferred offer type when offers are made. Offers will be made in the order of CSP first and BMP second.
- **For The University of Melbourne** you may specify the types of places you wish to be considered for. You will not be considered for a type of place that you have not listed, however no consideration is given to the order of preferred place types listed when offers are made. Offers will be made in the following order: CSP, BMP and FEE, with the most highly ranked applicants being offered CSP places and so on down the merit order until all vacancies are filled. It is important that applicants who are not in a position to pay for a full fee (FEE) paying place DO NOT list this type of place in their application for the University of Melbourne. Once an applicant is offered a FEE place it is not possible to swap into a CSP or BMP place.
- **For The University of Western Australia** you may specify the types of places you wish to be considered for, however no consideration is given to preferred offer type when offers are made. Offers will be made in the

following order: CSP then BMP.

- **ANU** will allocate place types based on the ranking of the applicant and their preferences.
- **For the University of Wollongong** you must specify the types of places you wish to be considered for in your preferred order. You must also note your preference for the Wollongong campus or the Shoalhaven campus (or indicate no preference). Allocations will be according to applicant rank and preference.
- **For Deakin University** you may specify the types of places you wish to be considered for. You will not be considered for a type of place that you have not listed. Offers will be made in the following order: CSP and BMP, with the most highly ranked applicants being offered CSP places and so on down the merit order until all vacancies are filled.
- **For Griffith University** you must specify the types of places you wish to be considered for in your preferred order. You must also note your preference (1 and 2 or no preference) for the Gold Coast campus and the Sunshine Coast Health Institute teaching location. Allocations will be according to applicant rank and preferences.
- **For The University of Notre Dame Australia**, Fremantle and Sydney, applicants must specify the types of places they wish to be considered for. Applicants will not be considered for a place they have not selected. Offers will be made in the following order: CSP first and BMP second for Fremantle campus. CSP first, BMP second and Full-Fee third for Sydney campus.
- **For Macquarie University** all places are Full-Fee paying and will be allocated based on the ranking of the applicant and their preferences.

I want to change my preferences/types of places.

Once you have submitted your application, this is not possible.

Exception:

The University of Notre Dame Australia, Sydney may accept one change of type of place per application year should you wish to add or remove the Full Fee-paying type of place. No other offer type changes will be considered. Changes must be made in writing directly with the Institution on or before **4pm AEST 5th October 2019**. See the Schools' pages in this guide for details.

My degree is more than 10 years old; am I still eligible to apply?

Bachelor degrees that were awarded more than 10 years prior to the anticipated commencement date may not be acceptable at the school to which you are applying. Most schools accept postgraduate study within the last 10 years as reason to waive this rule. They will then calculate the GPA on the prior bachelor degree. Some schools do accept Postgraduate study either for calculation of the GPA or to meet their GPA hurdle.

To confirm whether your degree will be recognised, check the relevant schools' entries in this Guide and their websites and contact the schools if you are still in doubt.

The prerequisite subjects required for entry to the University of Melbourne and Macquarie University must be completed within 10 years of commencing the MD.

Which degree will you use to calculate my GPA (the Qualifying/Key Degree)?

We will generally use the GPA from the most recently-completed qualifying/key degree and this may include a degree you will complete in the year in which you apply, except for UWA (see school website for details on what study is included) who consider the most recent three years FTE of valid study. See the schools' entries in this Guide for more details.

What is the definition of an Honours Year, in terms of GEMSAS GPA calculations?

An Honours Degree is a research-intense award pegged at Level 8 in the AQF. One-year honours programs are a specialised year of study undertaken as an extension to an undergraduate degree – this is a ‘standalone’ Honours award. Some four-year (or more) undergraduate programs have honours embedded within their structure, this is an ‘embedded’ Honours award. Standalone Honours are used as the Final GPA year along with the last two years of the preceding bachelor degree. With embedded Honours, it’s just the most recent three years of the degree that’s used.

Exception:

UQ please see their school entry for more information.

I have done (or I am completing) an Honours Year. Will this be used for selection?

We include Honours results in GPA calculations, however this can become problematic where the Honours year isn’t complete. Typically Honours results are only available at the end of the Honours year and we do a GPA calculation for allocating applicants to interviews in the middle of the year. So you would probably have a GPA calculated on your bachelor degree used for getting an interview and then when the Honours results are available, they would be used to confirm any conditional or provisional offer you may have been made. However, if you do have results for Honours from Semester 1, these may be used in your GPA calculation together with results from the last two years of your bachelor degree.

Exception:

The University of Melbourne, if an Honours degree is not completed by mid-year in the year of application, it will not be used.

For UWA, if an Honours degree is not completed by mid-year in the year of application it will not be used.

For Griffith University, if a standalone Honours degree is not completed by the time of application, it will not be used.

Check the relevant schools’ entries in this Guide and their websites to determine if your current Honours will be used in the calculation.

Will my Honours subject results or the overall Honours grade be used in my GPA calculation?

Where an Honours year is eligible to be included; if your Honours year consists of subjects which have results then these will be used to calculate your GPA. If there are no subject results, and only an overall Honours grade, then that will be used (refer to the GPA Conversion Table).

If both subject results and an overall Honours grade are available:

ANU, Griffith, Notre Dame, UWA, Wollongong the best GPA will be used.

Deakin, Macquarie, The University of Melbourne will use Honours subject results only.

The University of Queensland will use the best GPA where the honours program is integrated into a 4-5 year bachelor degree. For standalone one year research based honours programs, the final Honours grade will be the only result used in the GPA assessment. Three year bachelor degrees with integrated honours will have the honours result disregarded.

I have done (or I am completing) a Professional Honours. Will this be used for selection?

Please see the school entry section, to see which medical schools will consider a professional honours and the conditions around it.

What is the minimum FTE (Full Time Equivalent) study load in semester one of current year study to be included in GPA calculations?

Australian National University	37.50%
Deakin University	25%
Griffith University	No minimum
Macquarie University	No minimum
The University of Melbourne	37.50%
The University of Notre Dame Australia, Fremantle	No minimum
The University of Notre Dame Australia, Sydney	No minimum
The University of Queensland	No minimum
The University of Western Australia	More than 25%
University of Wollongong	37.50%

How do I allocate subjects to years to calculate my GPA?

First, read the documents at www.gemsas.edu.au/gpa-calculations.

The way to calculate your GPA is to take the total credit points and divide by the years normally taken to do the degree. This will give you the number of credit points to allocate to each GPA year³.

Example:

Assume that all the units you did were of equal credit point value.

If you did 24 units in a 3-year degree you would allocate 8 units a year.

Working backwards chronologically take the most recently-completed 8 units and allocate them to the Final GPA Year. Then take the next 8 units and allocate them to the Final-minus-1 GPA Year and the remaining 8 units will be the Final-minus-2 GPA Year.

A GPA calculator is available for use on our application page (<https://applygemsas.edu.au/gemsas/#/home>).

How are subjects allocated to the three GPA years?

We allocate by the year in which subjects were taken and not the level of the subjects. We use full-time equivalent (FTE) study loads to allocate subjects to GPA years so we can take part-time, overloading and subjects of differing credit point values into consideration.

How are subjects allocated to the GPA years, if I have non-standard semesters?

Subjects are still allocated in the year they were taken. If you have undertaken any non-standard teaching periods outside of the standard Semester 1 and Semester 2 teaching periods offered at most institutions, you may be contacted for further clarification via email by the GEMSAS assessment team. If you do receive an email you will be required to

³ *Exception: for The University of Queensland the GPA is calculated over the entire duration of the degree and is not divided into years.*

attach evidence from your Institution that shows the order in which the subjects were taken (e.g. unofficial transcript or enrolment record) via email to info@gemsas.edu.au.

How are credits from prior study used in the GPA calculation?

See the GPA section on our website - [GPA guidelines](#)

Specified credit as per the definition, requires the qualifying/key degree record to show the subject codes, names, weightings and results, which most results retrieved through ARTS do not show. So we then will use the most recent prior study up to the number of credit points awarded as credit for prior study. We do not use transcripts if results are available via ARTS.

Credits from prior study not at the same study level, will not be used in the GPA calculation (e.g. a bachelor degree with prior credits from a diploma).

Who uses postgraduate study?

The following schools use postgraduate study in GPA calculations –

- UWA, who use the most recent three years FTE of results regardless of whether they are complete (except honours which must be complete). Please see school entry for a list of the type of study included in the GPA.
- UQ, who accept completed postgraduate degrees (Graduate Diplomas, Postgraduate Diplomas, Masters, Doctoral and PhDs) as standalone qualifying/key degrees.
- Griffith will calculate the GPA using the most recently completed qualifying/key degree/s (a Masters by coursework; Masters by Research; or PhD) if completed by 31 July, 2019. Griffith allocates an overall GPA of 7.00 for completed PhDs and a 7.00 for each full time year of a completed Masters by Research (up to a maximum duration of two years). To complete the 3-FTE years of study when using a Masters degree, the next most recently qualifying/key degree final year/s will be included as required.
- ANU will include Honours and Masters by Coursework results in the 3-year GPA calculation if the degree is completed or due to be completed by 31 December in the year of application.
- Macquarie University will calculate a GPA including Graduate Diploma and Coursework Masters, if this degree will be completed by 31 December the year of application. Completed Research Masters and PhD will be used in GPA calculations.
- The University of Notre Dame Australia, Fremantle and Sydney, will calculate the GPA on the most recently completed 3-FTE years of study including qualifications at Graduate Diploma, and Masters by coursework level, if completed by 31 July 2019.

Please see the “Entry requirements – All applicants” section for more detailed information. All other schools use the most recently-completed undergraduate degree only in GPA calculations.

I’ve done a postgraduate degree, do I calculate my GPA on that or on my undergraduate degree?

Postgraduate qualifications such as Masters, PhDs, or postgraduate diplomas, may be included in GPA calculations. However, because schools do have different rules surrounding the use of these qualifications you should read the school entries in this Guide or contact your preferred schools directly for advice.

- For the University of Queensland, Graduate Diploma, Postgraduate Diploma, Masters, Doctoral and PhD results are currently used for the GPA calculation for admission (where these awards are deemed to be the ‘qualifying/key degree’). See UQ’s school entry in this Guide for further information.
 - For The University of Western Australia, Graduate Certificates, Graduate Diplomas and Masters by Coursework are included in a 3-year GPA calculation. Applicants with a completed Masters by Research will be awarded a 0.2 bonus to their overall GPA. Applicants with completed PhDs will be deemed a GPA of 7.00.
-

-
- Griffith awards a GPA of 7.00 for each equivalent full time year taken to complete a Masters by Research only (the remainder of the GPA will be taken from your most recently completed qualifying/key degree) and an overall GPA of 7.00 is given for a completed PhD.
 - ANU will award a percentage bonus of 2% for a standalone Honours degree if the qualification is completed or due to be completed by 31 December in the year of application. The bonus applies to standalone Honours degrees only. Embedded and Professional Honours programs are included in the GPA calculation but do not receive the percentage bonus. A percentage bonus may be awarded for a Masters by Research (2%) or PhD (4%) if the qualification is completed prior to the date of application, course results for Masters by Research and PhD's are not included in the GPA calculation. Masters by Coursework degrees will not attract a bonus but may be included in the GPA calculation if the degree is completed or due to be completed in the year of application.
 - The University of Notre Dame Australia, Fremantle and Sydney will include Graduate Diplomas and Masters by coursework, completed by 31 July 2019, in the 3-year FTE GPA calculation.
 - Macquarie University will calculate a GPA including Graduate Diploma and Coursework Masters, if this degree will be completed by 31 December the year of application. Completed Research Masters and PhD will be used in GPA calculations. See the Macquarie school entry in this Guide for further information.
-

How will GEMSAS determine equivalency of your overseas qualification/s to the Australian Qualification Framework?

GEMSAS assessors will review all overseas documents that are received and determine the equivalent level of the qualification under the [Australian Qualifications Framework](#) (AQF). Often, this means confirming that a Bachelor degree studied overseas is equivalent in educational level to a Bachelor degree completed in Australia. However, GEMSAS will also assess other types of post-secondary overseas qualifications claimed by applicants, such as postgraduate studies and exchange programs.

For all overseas assessments GEMSAS uses the Australian government's [Department of Education and Training](#) Qualifications Recognition Policy Unit (previously known as NOOSR/AEI NOOSR) guidelines for verification and level equivalency. Where GEMSAS is unable to determine the equivalent level of a qualification using these guidelines, the assessment is passed to the institution/s to which the applicant has applied.

How will my overseas study be converted to an Australian equivalent scale?

GEMSAS uses an Australian 7-point grade point average scale to calculate GPAs. As many other countries use a different grading system, we may need to convert applicants' grades to a 7-point GPA scale before their GEMSAS GPA can be calculated.

GEMSAS will take the actual results from applicants' overseas university transcripts and use the institution grading information provided on the transcript to convert these grades to a 7-point GPA scale. To do this, we need to know the minimum required pass marks and the maximum achievable grade. GEMSAS will generally use the percentage grade where a transcript shows both a percentage grade and a letter grade.

If there is no information on a transcript regarding the grading scale, GEMSAS assessors may take further steps, such as researching the institution and checking the grading system on the institution's official website, or using guidelines provided by The Department of Education & Training. In some cases, we may request further documentation from applicants that confirms the grading system used by their institution. If you know the minimum and maximum marks you can use the [GPA Calculator](#) on the GEMSAS website.

Completed vs Graduated?

All medical schools will use the year of completion or award, not the year of graduation. For example, if your final semester of study was Semester 2, 2009. The degree was conferred in March 2010. The degree will be considered to have been completed in 2009.

What is the definition of a Conversion degree and how will it be used?

For most institutions a conversion degree is a course that is not a genuine minimum three full-time year equivalent (FTE) qualification. If a Bachelor's degree has a minimum three full-time equivalent (FTE) duration but the applicant has studied less than that period towards that degree because they've gained credit from prior studies from an Associate Degree, Advanced Certificate, Diploma or lower (lower than AQF level 7) this is not denoted as a conversion degree.

Exceptions:

For **ANU** a Conversion Degree is deemed as a Bachelor Degree which has credit or advance standing from a level below AQF level 7 (e.g. credit or advanced standing from an Associate Degree, Diploma or TAFE level studies). Conversion degrees will be deemed as per the rules below:

- If you have a Bachelor Degree with less than 0.375 FTE of credit from below AQF level 7, the award will not be deemed as a conversion degree and the credit will not be included in the weighted GPA calculation. The GPA will be calculated using the remaining results of which have been completed at AQF level 7 and above.
- If your Bachelor Degree has 0.375 FTE (or more) of credit from below AQF level 7, the award will be deemed as a conversion degree. If you have a conversion degree, it cannot be accepted for admission and cannot be used for GPA purposes.

For **Wollongong**: If you have received credit of greater than 1FTE from a program below an AQF Level 7 (i.e. Associate Degree, Advanced Certificate, Diploma) then the award is deemed as a conversion degree and will not be accepted. Any credit from an international baccalaureate will also not be accepted. Please contact the school directly for more information.

For **Macquarie** if you receive credit from a program below an AQF level 7 (i.e. Associate Degree, Advanced Certificate, Diploma) then the award is deemed as a conversion degree and will not be accepted.

I was interviewed at School X (my 3rd preference) and I did really well in the interview but I would rather be offered a place at School Y (my first preference). Is that possible?

You cannot be considered for an offer at a school above the preference of the school at which you were interviewed. They have already decided that either you don't meet their minimum criteria or you were not ranked highly enough to get an interview offer. That status can't change in the subsequent offer rounds despite how well you perform at interview.

What is the standardisation of interview scores?

The standardisation of interview scores ensures comparability between institutions. This is a statistical process which uses means and standard deviations from the different interview score distributions to put all the sets of scores onto the same scale.

What happens to my application after interview?

If you are not made an offer by the School at which you were interviewed, your application will remain in the system and will automatically be considered by your lower preference Schools (at which you are eligible for consideration) or by the School at which you were interviewed (for a later offer) until you are either offered a place or all preferences have been exhausted. If you are interviewed by your final preference School, your application cannot be considered by any other preference.

Can I get my interview score or ranking data?

GEMSAS is not able to provide any ranking data or interview scores. Many factors impact on who gets an offer and apart from the selection components used, there are also factors at play including your willingness to accept bonded or fee

places, whether you are a rural or an Aboriginal or Torres Strait Islander applicant and whether or not you were eligible for bonuses/adjustment or for special sub-quota places.

How are offers released?

All offers are decided on the same day and unsuccessful applicants are notified by email that day. Most medical schools advise successful applicants by email but for some medical schools offers are complex to generate, so these notifications may take a few days to reach you. Not receiving an email from GEMSAS usually means good news! Please make sure you have listed info@gemsas.edu.au as a 'trusted sender' in your email system.

How many offers will I receive?

Applicants are made only one offer each year. Once you have been made an offer, you are not eligible for subsequent round offers. If you decline your offer you are removed from the applicant pool and can apply again next year.

What is a conditional offer?

If you are made an offer of a place, and you have not completed your degree (or prerequisites for the University of Melbourne or Macquarie University, or you are undertaking additional bachelor or postgraduate studies for UWA), then the offer will be conditional. When we get your final results we will calculate your final GPA and check that it meets any conditions the school may have put on your offer (e.g. maintaining a stated GPA). If it does, your offer will be confirmed, and if it doesn't meet the conditions the offer will be withdrawn. Applicants enrolled in a combined degree who receive a conditional offer for a place at the University of Melbourne or Macquarie University must complete both awards in order to have their offer confirmed. For The University of Notre Dame Australia, Fremantle or Sydney, please see the School specific requirements for applicants enrolled in a combined degree. If you studied at an ARTS university we will try to get your final results and confirmation of completion of your degree electronically.

We often have difficulty obtaining your final results and confirmation of completion of your degree and may request your assistance to encourage your university to upload your results and completion data and to authorize the release of this information to GEMSAS.

If you studied at a non-ARTS university you will need to send an original transcript showing final results and evidence of completion of your degree.

I had better GPA and GAMSAT scores than a friend and they were offered a place at X University. Why wasn't I offered a place?

Selection is very complex and many factors impact on whether or not you will get an offer. There are many reasons why an applicant with the same or lower GPA and GAMSAT scores as you may have been offered a place when you were not.

- They may have performed better in the interview and/or portfolio or personal statements
- They may have come from a rural background
- They may be of Aboriginal and/or Torres Strait Island descent
- They may have received bonus points for postgraduate study
- They may have received adjustment/bonus points or come through a preferential entry scheme that recognises disadvantage
- They may have accepted a BMP or Fee place where you indicated that you would not be prepared to accept one of these places
- They may have accepted a place in a special sub-quota

I want to decline an offer of a place. Can I be considered for another place or receive another offer?

Applicants are made only one offer each year. Once you have been made an offer, you are not eligible for subsequent round offers. If you decline your offer you are removed from the applicant pool and can apply again next year.

I have not received an offer in the main round – what happens now?

If you do not receive an offer of a place in the main round of offers after interview, your application will remain in the system. Additional offers may be made during December and January after final results of applicants completing their qualifying/key degree are known.

It is **NOT** possible for applicants to change their preferences after the application closing date.

I need to courier transcript documents to GEMSAS. What is their address?

VTAC
Attention: GEMSAS Assessors
40 Park Street
South Melbourne, VIC 3205, Australia.
(03) 9926 1020

I need to courier other supporting documents (not transcripts) to GEMSAS. What is their address?

Please email info@gemsas.edu.au for instructions and include your GAMSAT ID.

What happens if I am also applying for courses outside the GAMSAT Consortium medicine courses?

There are many applicants for medical school places who will not be offered an interview or a place. If you have been offered a place in another course or by an institution not participating in GEMSAS and you intend to accept that place, then please be considerate of fellow applicants and withdraw your application for all GAMSAT Consortium courses as soon as possible. Withdraw by emailing info@gemsas.edu.au quoting your GAMSAT ID. You will be contacted to confirm your withdrawal.

How to Apply

1 Complete the online application form

To apply for admission to a course commencing in 2020, you must complete and submit the online Application Form – on the ApplyGEMSAS website – by no later than **5pm AEST/3pm AWST Friday 31st May 2019**. Please do not leave submission until the last minute as many others will also do this and system overloading can impact your ability to meet the deadline.

Late applications will NOT be accepted.

The application fee is paid by credit card, when completing the online application form. You do not need to complete your payment at the time of submission, but must do so by 5pm AEST/3pm AWST 5th June.

In 2019, for 2020 entry, the application fee is **AUD\$200**.

Don't forget to include info@gemsas.edu.au as a trusted email address, to ensure messages from the GEMSAS team are not treated as spam and sent to your Junk folder. We cannot be held responsible for any email not reaching or not being read by you.

2 Post your supporting documentation

After completing the online Application Form and making your payment, you may need to submit some hard copy documents. All additional documentation must be posted **according to the dates listed below**. Wherever possible they should be dispatched earlier. Please refer to the list below for information about where you need to send the required documentation.

All applicants who intend to post documentation, please use a postal service that will ensure that we receive your documentation within 5-7 days, e.g. via Airmail or a courier service.

ORIGINAL ACADEMIC TRANSCRIPTS

Due date: Posted no later than 5:00pm your time on Friday 7th June 2019

If any of your tertiary studies were undertaken at a university not listed in Appendix A (as an institution whose results can be retrieved through ARTS), you **MUST** send an original transcript for all such studies along with a copy of your printed Education coversheet to:

GEMSAS Operations
PO Box 2025
South Melbourne
VIC 3205

Any qualification undertaken in a language other than English must be documented by the original transcript, accompanied by an officially translated original (by a NAATI translator), in English. The NAATI Translation cannot be a photocopy, PDF printout and it must be stamped and signed on every page by an accredited NAATI translator.

Transcripts will be returned at no cost to the applicant for regular sized domestic mail. A paid premium service is available if you wish to have your transcripts couriered domestically or internationally. Please see coversheets for details and page 37 for more information.

Extra documentation requirements for study in China and India:

China:

- Original Transcript in both Chinese and English Language
- Original Degree Certificate that is "Awarded according to the Regulations Concerning Academic Degrees in the People's Republic of China (中华人民共和国学位条例)" - both in English and Chinese Language

- If you have completed a Masters degree we will need your original Graduation Certificate that shows you completed/defended your Thesis - both in English and Chinese Language, in addition to the above.

*English Translations must either be issued from your school or NAATI Translations.

*Please note if you do not provide all of the above it may delay the assessment of your application.

India:

- Unconsolidated Marksheets including any backlogs - Marksheets must be issued from the awarding University NOT the college.

- Official Completion Certificate (in addition for the marksheets/transcripts)

*Please note if you do not provide all of the above it may delay the assessment of your application.

ADDITIONAL DOCUMENTATION (if required)

Due date: Posted no later than 5:00pm your time on Friday 7th June 2019

The universities listed in the tables on pages 7 to 15 require applicants to submit additional documents. Additional documentation for Deakin University should be sent along with a copy of your printed coversheet to:

GEMSAS Processing
PO Box 522
Ferny Hills DC
QLD 4055

Additional supporting documentation for The University of Melbourne (Graduate Access Melbourne Scheme), as outlined on page 13, should be submitted through the university's online webform.

Due date: 5:00pm EST on Friday 31st May 2019.

If you wish for your Deakin adjustment (bonus) documentation to be returned, please include an appropriate sized **reply paid envelope**.

SUPPORTING DOCUMENTS FOR APPLICANTS FROM A RURAL BACKGROUND

Due date: Posted no later than 5:00pm your time on Friday 14th June 2019

All applicants who have completed the **rural background questions** in the Application Form must send their supporting documentation along with a copy of your printed coversheet to:

GEMSAS Processing
PO Box 522
Ferny Hills DC
QLD 4055

If you wish for your Rural documentation to be returned, please include an appropriate sized **reply paid envelope** and a note requesting its return.

FAQs about completing your application

I didn't receive confirmation of my submitted information or my payment

After completing the Application Form you will need to SUBMIT your application. You will then be taken to the Deakin University payment system to make your payment. Once your payment has been made successfully you will be shown a receipt screen.

Please note your receipt number or print this screen for your records. If you are not able to complete these steps, please email info@gemsas.edu.au.

You will not receive an email from GEMSAS confirming your application has been submitted. You will receive an email with a receipt number once payment has been made and this is confirmation that your application has been successfully submitted.

I have previously applied through GEMSAS

If you have previously applied through GEMSAS, you are still required to register online and complete and submit a new application and send in **ALL** documentation (except supporting documentation for some Deakin adjustments (bonuses), see pages 9 to 12).

Do I need to pay for each medical school preference?

You pay a single fee of \$200 and this covers up to six preferences.

I can't see my coversheets for submitting supporting documentation

As your application progresses, a menu item "Coversheets" will appear on the left of your screen. Coversheets are generated according to your selections and responses. You can view the coversheets that you will be required to submit with supporting documentation, but will only be able to access them once you have submitted and paid for your application. To access your coversheets, after you have submitted and paid for your application, log into your application and select the Coversheets button on the Field of Study page.

If you are unsure if you should supply supporting documentation, please check pages 7-15 of this guide.

If you cannot save or print any of the documents mentioned above, please email info@gemsas.edu.au and include your GAMSAT ID.

Do I still need to post the Education coversheet if I have no supporting documentation?

The Education coversheet will only be generated if you have selected a university that does not participate in ARTS, for ANY of your study. The Education coversheet will not be generated if no original transcripts are required to be sent in.

I don't have an original transcript; can I submit a certified copy?

No, **only original transcripts** may be supplied where these are required. Scanned or photocopied transcripts, including certified copies, are not acceptable.

A statement of results is not acceptable and is not considered in place of a full transcript, nor is a printout of an academic record.

Any qualification undertaken in a language other than English must be documented by the original transcript, accompanied by an officially translated original (by a NAATI translator), in English. The NAATI Translation cannot be a photocopy, PDF printout and it must be stamped and signed on every page by an accredited NAATI translator.

All applicants who intend to post documentation, please use a postal service that will ensure that we receive your documentation within 5-7 days, e.g. via Airmail or a courier service.

I'm still studying this year; do I need to submit a 2019 transcript?

Applicants completing their qualifying/key degree in 2019 will be assessed on the basis of the information available at the time of application. Semester 1 (or Trimester 1), 2019 results will be included in the assessment for interview if they are available at the time of assessment.

- For the University of Melbourne, Semester 1 results will not be used in the provisional GPA if they do not equate to at least 0.375 EFTS Load in that semester. If an Honours degree is not completed by mid-year in the year of application, it will not be used
- For ANU and the University of Wollongong, Semester 1 results will not be used in the provisional GPA if they do not equate to at least 0.375 EFTS Load in that semester
- For Deakin University, Semester 1 results will not be used in the provisional GPA if they do not equate to at least 0.25 EFTS Load in that semester
- For the University of Western Australia, Semester 1 results will not be used in the provisional GPA if they do not equate to more than 0.25 EFTS Load in that semester, unless older/additional study is also available

If your results are from an ARTS university, your Semester 1, 2019 results will be electronically retrieved during June and July. If you have any unpaid fees at your university we will not be able to retrieve your results until these have been attended to. **Please do this ASAP.**

For study at a non-ARTS university, in Semester 1, 2019 please supply an original transcript as soon as possible to the GEMSAS Operations PO Box. Please post by **19 July** noting that the documents must reach us within 5-7 days. Please use a postal service that will meet this deadline.

Applicants completing their degree in 2019 will only be offered an interview if the GPA at the time of application (with 2019 results to date) meets the required level.

Such applicants should also note that while decisions on interview offers will be made on the basis of results available at the time of application, final 2019 results may be used to determine offers of a place. **Refer to each school's entry in this Guide for more information.**

Exchange studies and transcripts

Exchange studies are part of your degree and therefore we use the results from those studies in calculating your GPA. Exchange studies may appear on your home university transcript as pass/fail subjects, but we use your actual results to calculate your GPA.

You must obtain and supply an original transcript for any exchange studies you have done.

Exception:

The University of Western Australia will normally use the results that appear on the home university's transcript (in most cases this is an ungraded pass or an ungraded fail). Please see the Faculty website for further information and for exceptions to this general rule.

Any qualification undertaken in a language other than English must be documented by the original transcript, accompanied by an officially translated original (by a NAATI translator), in English. The NAATI Translation cannot be a photocopy, PDF printout and it must be stamped and signed on every page by an accredited NAATI translator.

My declared study and/or results have changed. What should I do?

Ensure you inform GEMSAS ASAP if there is any change to your study, especially your qualifying/key degree.

Ensure you inform GEMSAS ASAP if there is an update to a Semester 1 or Semester 2 result or if there is a delay in obtaining a Semester 1 or Semester 2 result (e.g. sitting a special/supplementary or deferred exam), so GEMSAS is made aware of the need to retrieve these results.

Note that ARTS results are retrieved on request and unless you notify us of updates, we will not request ARTS results outside of the scheduled times.

What study should I declare in the application?

ALL tertiary study is to be declared (this includes completed and incomplete study), whether relevant or not to your qualifying/key degree.

I have lodged through GEMSAS two or more applications for medicine

Only your **first submitted** application will be processed, regardless of which application has been paid for.

How do I submit portfolios for The University of Notre Dame, Australia and the University of Wollongong, and personal statement for Macquarie University?

Portfolios and personal statements are completed in the application form and submitted once you submit your application. To avoid any potential loss of data due to session closure, we suggest you complete your portfolio or personal statement offline first and copy it into the live online application once you are satisfied with your work. As character count methods differ between programs you will need to check your online portfolio using the *review of responses* generated PDF. If your portfolio was not copied in its entirety you may need to do some further online editing to reduce the character count.

How do I know if my supporting documents have arrived?

It is strongly recommended that you use a postal service which provides a tracking mechanism (Registered Post, Express Post, courier, etc.), so that you can be certain your supporting documents have arrived at GEMSAS.

For Rural documents and Deakin adjustment (bonus) documents sent to the Ferny Hills PO Box, you may wish to include a reply-paid envelope with your supporting documents. This will be returned to you when your documents are processed as confirmation that they have been received.

Note that unless you also provide a letter requesting the return of the documents, this envelope will be returned to you empty.

If you have sent documentation to the Ferny Hills PO box, you can email in July to ask if your documentation has been received, please include your GAMSAT ID.

Can I have my documentation returned?

Transcripts will be returned at no cost to the applicant for regular sized domestic mail, see page 33 for details. A paid premium service is available if you wish to have your transcripts couriered domestically or internationally. Please see coversheets for details.

Hard copy documentation dispatched by applicants to GEMSAS prior to the required post-by date for 2019/20 applications should be received back by mail no later than **1st November 2019**. Processing lead times can vary depending on your nominated preferences and the type of documents you have provided. Your method of mail return and the destination of delivery may also influence the time required to return your documentation to you. On average, the return timeframe after document receipt at the GEMSAS Mail Room is estimated at **four weeks**. You will be notified in writing at the earliest convenience should any unexpected delays occur.

Be mindful that if you do not provide the correct documents and GEMSAS requests further information from you, returns may be held until the consideration of your application has been finalised. GEMSAS reserves the right to hold any documentation for further processing until the end of the application period.

Rural background and Deakin adjustment (bonus) supporting documentation can be returned at your request but only if, when you post these documents you include a note requesting to have the documents returned and include an appropriate sized **reply paid envelope**.

How can I update my personal details after I have submitted my application?

After you have completed your application you can update your gender, previous names, email, postal and/or residential addresses by logging back in to your application at applygemsas.edu.au and updating details in the Account, Personal Details and Contact Details sections.

If you need to advise GEMSAS of an error in your Date of Birth or Aboriginal or Torres Strait Islander status, or a change to your current name or citizenship details, please email info@gemsas.edu.au and include your GAMSAT ID along with the updated information.

How to calculate your GPA

For information on Grade Point Averages and how to calculate your GPA please view the documents on our website, <http://www.gemsas.edu.au/gpa-calculations/>. A GPA calculator is available for use on our application page at <https://applygemsas.edu.au/gemsas/#/home>.

In general this information applies to all schools, but please note local variations outlined on university websites and in the university specific information pages in this Guide.

Before you calculate your GPA, you should read the sections 'Before You Apply' and 'How to Apply'.

International Applications

International applicants must apply directly to all universities at which they wish to study. GEMSAS accepts and processes applications from domestic applicants only.

How can you assist GEMSAS?

PRINT AND SAVE Once you have completed your application, and prior to submission, we recommend you both save and print your “Review of Responses” and check this thoroughly to ensure the information you have supplied and selected, and your preferences, are correct and accurately convey your intentions. No changes can be made once your application has been submitted.

SUBMIT YOUR APPLICATION ON TIME Ensure your online application is submitted before the deadline, (once it has been completed and reviewed). No late submissions will be accepted.
Closing time is 5pm AEST /3pm AWST Friday 31 May.
Only your first submitted application will be processed, regardless of which application has been paid for.

TECHNICAL ISSUES? Alert GEMSAS ASAP if there is a technical issue (or any other issue) with your online application, so the issue can be resolved before the submission deadline.

PORTFOLIO OR PERSONAL STATEMENT SECURITY To avoid any potential loss of data due to session closure, we suggest you complete your portfolio or personal statement offline first and copy it into the live online application once you are satisfied with your work.
As character count methods differ between programs you will need to check your online portfolio using the *review of responses* generated PDF. If your portfolio was not copied in its entirety you may need to do some further online editing to reduce the character count. Use only plain text. Some characters such as quotation marks may be removed for security and formatting reasons.

DECLARE ALL TERTIARY STUDIES Ensure you declare **all** your tertiary study in the application (this includes complete **and** incomplete study).

UNPAID FEES? For study at a university that participates in ARTS, if you have any unpaid fees (including student amenities fees and library fines) we will not be able to automatically retrieve your results until these have been attended to. **Please do this ASAP.**

DOCUMENTATION AND TRANSCRIPTS Ensure documentation is sent by due dates (if required), with coversheets attached.
All applicants who intend to post documentation, please use a postal service that will ensure that we receive your documentation within 5-7 days, e.g. via Airmail or a courier service.
Ensure **original transcripts** are sent to GEMSAS for all study at non-ARTS institutions including those at which you undertook exchange studies. You must obtain and supply an **original transcript** for any exchange studies you have done. Any qualification undertaken in a language other than English must be documented by the original transcript, accompanied by an officially translated original (by a NAATI translator), in English. The NAATI Translation cannot be a photocopy, PDF printout and it must be stamped and signed on every page by an accredited NAATI translator.
Ensure you inform GEMSAS if there is a delay in obtaining Semester 1 or Semester 2 results (e.g. sitting a special/supplementary or deferred exam), so GEMSAS is made aware of the need to retrieve these results.
Please send only those documents that have been specifically requested. No additional documentation or general correspondence should be sent to the GEMSAS Processing PO Box.

Note that there are two separate PO Boxes, ensure you send your documents to the appropriate one. Your contact details need to be operational and GEMSAS informed if they are changed

If there is a delay in obtaining final results, (if you have been made a conditional offer of a place), alert GEMSAS ASAP (e.g. sitting a special exam). Please ensure you alert GEMSAS well before the 31 December 2019 deadline.

Completions (Academic transcript showing that you have completed your degree) must be sent to GEMSAS ASAP (**by 31 December 2019**) if you have been made a conditional offer of a place and you studied at a non-ARTS University.

ENQUIRIES

Read the FAQs and the Admissions guide before submitting an enquiry via info@gemsas.edu.au

YOUR GPA

Please email your full name and **GAMSAT ID** when requesting your GPA **in mid-August**.

TIMING AND OFFERS

Universities may not process your course completions as quickly as is needed by GEMSAS to get your offer confirmed in time. You can assist by contacting your central student administration to impress upon them the importance of getting your completion loaded into their student system and made available through ARTS.

For some universities you will need to give them permission to send your completion data to GEMSAS OR you can post an original academic transcript showing that your degree is completed to the GEMSAS PO Box **by 31 December 2019**.

	International	Up to 20
The <i>Medicinae ac Chirurgiae Doctoranda</i> (MChD)	The <i>Medicinae ac Chirurgiae Doctoranda</i> (MChD), Latin for Doctor of Medicine and Surgery, is a comprehensive and varied four year program for graduate students looking to enter the rewarding field of medicine. It aims to produce graduates who are committed to compassionate, ethical health care and the expansion of medical knowledge. The MChD is a Level 9 Extended Masters qualification as defined by the Australian Qualifications Framework (AQF).	
Bachelor Degree	<p>Applicants must have completed a Bachelor degree or be completing the final year of a Bachelor degree at the time of application.</p> <p>The Bachelor degree must be an AQF Level 7 qualification (at minimum) and must be comprised of at least three full-time equivalent years (3.0 FTE) worth of study.</p> <p>Two-year accelerated Bachelor degrees (i.e. where 3.0 FTE worth of study is fast-tracked over two years) will be accepted but must be completed at the time of application.</p> <p>The ANU Medical School does not accept conversion degrees. A conversion degree is defined as a Bachelor degree that includes 0.375 FTE or more worth of credit from previous studies undertaken below AQF Level 7 (e.g. a Bachelor degree containing prior credit from a TAFE certificate/diploma).</p> <p>Bachelor degrees completed in Australia must be from a Commonwealth-accredited institution. Bachelor degrees completed overseas must be from a recognised institution and must be equivalent to an Australian Bachelor degree, as determined by the Australian Government Department of Education and Training Qualifications Recognition Policy Unit.</p> <p>The ANU Medical School welcomes graduates from a variety of undergraduate backgrounds (sciences, social sciences, arts, humanities, law, etc.) and considers all applicants equally. There is no preferred Bachelor degree or prerequisite subjects for entry to the MChD program.</p> <p>Applicants who have completed a higher-level qualification but do not hold a recognised Bachelor degree are not eligible for consideration. Standalone Honours and/or Masters by Coursework qualifications will only be accepted as 'key degrees' if the applicant has already completed a recognised Bachelor degree prior to undertaking the higher-level study.</p> <p>Applicants whose Bachelor degree was awarded more than 10 years ago will need to meet further study requirements to be eligible to apply. Please read the 'Currency of Qualification' section for more information.</p>	
GPA	<p>The ANU Medical School uses a weighted GPA calculation for admission to the MChD program. This means your most recent results are weighted more heavily:</p> <ul style="list-style-type: none"> • Final GPA Year (most recent) = Weighted x3 • Final-1 GPA Year (2nd most recent) = Weighted x2 • Final-2 GPA Year (3rd most recent) = Weighted x1 <p>A minimum weighted GPA of 5.6 is required to be considered for interview.</p> <p>The GPA calculation is based on three years of full-time equivalent study (3.0 FTE) in your most recent eligible degree. For the purpose of the GPA calculation, eligible degrees include Bachelor,</p>	

	<p>Honours and Masters by Coursework programs. Course results from eligible degrees will be included in the GPA calculation if the degree is already completed or due to be completed by 31 December in the year of application.</p> <p>If your most recent eligible degree comprises less than 3.0 FTE worth of study, course results from your next-most-recent eligible degree(s) may be used to make up the remainder of the 3.0 FTE. For example, if an applicant has completed a 1 year standalone Honours degree after their Bachelor degree, their GPA would be calculated using 1.0 FTE worth of results from the Honours program (Final GPA Year) and the remaining 2.0 FTE worth of results would be taken from the last two years of the Bachelor degree (Final-1 and Final-2 GPA Years).</p> <p>If the duration of a degree exceeds the equivalent of 3 full-time years of study, only the courses comprising the last 3.0 FTE worth of study will be used in the GPA calculation. For example, for a 5 year combined degree, the GPA calculation will only include the last 3 years of study and will not include the first 2 years.</p> <p>Where an applicant is completing the final year of their degree in 2019, the current year of study will only be included in the GPA calculation if at least 0.375 FTE worth of course results from Semester/Trimester 1 2019 are available to be used in the calculation. If at least 0.375 FTE worth of results are not yet available, the Final GPA Year will be excluded from the calculation and the GPA will be calculated using only the Final-1 (x2) and Final-2 (x1) GPA Years.</p> <p>Please note Graduate Diplomas, Graduate Certificates, Masters by Research, PhDs, non-award study and study completed below AQF Level 7 will <u>not</u> be included in the GPA calculation. However, completion of some higher-level qualifications may attract a percentage bonus. Please refer to the 'Bonuses' section for further information.</p>
<p>Currency of qualification</p>	<p>Applicants are required to have completed their Bachelor degree within 10 years of the date of application. The 10 years is measured from the date your degree was officially completed (i.e. the date of conferral), not the date of your graduation ceremony. If your Bachelor degree was completed more than 10 years ago, the '10 year rule' may be waived if you have undertaken additional undergraduate or postgraduate study in the intervening period. This must be evidenced by successful completion of at least 0.5 years of full-time equivalent study (0.5 FTE) in a Commonwealth-accredited program at Bachelor level or higher (as defined by the Australian Qualifications Framework) in the 10 years prior to the date of application.</p> <p>A study load of 0.5 FTE is usually equivalent to one semester of full-time study or two semesters of part-time study.</p>
<p>GAMSAT</p>	<p>Applicants must have achieved a minimum score of 50 in each section of the GAMSAT and a minimum Overall Score of 55 to be considered for an interview.</p>
<p>Bonuses / Special entry schemes</p>	<p>Honours: A percentage bonus of 2% may be awarded for a standalone Honours degree if the qualification is already complete or due to be completed in the year of application. The bonus applies to standalone Honours degrees only. Embedded and Professional Honours programs are included in the GPA calculation but do not receive the percentage bonus.</p> <p>Masters by Research or PhD: A percentage bonus may be awarded for a Masters by Research (2%) or PhD (4%) if the qualification is completed prior to the date of application.</p> <p>Note: The percentage bonus is applied to the combined GPA/GAMSAT score. Applicants must meet the individual GPA and GAMSAT minimum requirements before they can be eligible for a bonus.</p> <p>Applicants cannot accumulate additional bonuses for completing more than one of the degrees listed above. If an applicant has completed more than one qualification that is eligible for a bonus, only the highest bonus will apply.</p>

Indigenous Applicants	<p>Aboriginal and/or Torres Strait Islander applicants may apply directly to the ANU by completing the Online Application Form. Applicants are also required to send the below documentation to admissions.medicalschool@anu.edu.au:</p> <ul style="list-style-type: none"> • Official Bachelor degree transcript • Official transcript/s for any postgraduate degree/s (if applicable) • Official GAMSAT result • Medical School Aboriginal or Torres Strait Islander Declaration Form <p>Applications open 30 April 2019 and close 30 June 2019.</p> <p>If you are from a rural background please indicate this in your online application and provide supporting documentation. The Rural Background Criteria can be downloaded from the ANU Medical School website via the following link: https://medicalschool.anu.edu.au/files/Rural-Background-Criteria-MChD.pdf</p> <p>The admissions procedure for Aboriginal and/or Torres Strait Islander applicants will follow similar procedures to that of the domestic GEMSAS process. Applicants will be assessed based on their GPA and GAMSAT and may be offered an interview. Upon completion of interviews, successful applicants will be offered a place in the MChD program.</p>
Rural entry	<p>In line with Federal Government initiatives, the ANU Medical School offers 28% of its domestic places to students from a rural background. GEMSAS will use the Australian Standard Geographical Classification - Remoteness Area (ASGC-RA) system to determine if applicants meet the rural background criteria. If your primary place of residence has been in an Australian rural area (ASGS-RA 2 to 5) for 5 years consecutively or 10 years cumulatively, you may be eligible for consideration in the rural sub-quota. You can check the ASGC-RA classification of your address by visiting the Department of Health's DoctorConnect website.</p> <p>To be considered in the rural sub-quota, applicants must answer the Rurality question when completing their GEMSAS application and must provide supporting documentation to GEMSAS.</p>
Interview	<p>Applicants are ranked for interview consideration based on a composite score derived from the standardised weighted GPA and standardised Overall GAMSAT score, using a 50/50 weighting.</p> <p>Interviews for domestic applicants are conducted in mid-September in Canberra. Domestic applicants are required to attend their interview in person. Skype/videoconference interviews are not allowed.</p>
Offers	<p>Offers of a place in the program will be based on a total combined score derived from the interview score (weighted 50%) and the composite GPA/GAMSAT score used for the interview ranking (weighted 50%). Meeting the minimum criteria does not guarantee admission into the program.</p> <p>An offer made to an applicant who is studying the final year of their key degree in 2019 will be conditional upon the successful completion of the degree. Evidence of successful completion must be received by GEMSAS no later than 31 December 2019. Applicants must meet the minimum weighted GPA threshold of 5.6 upon completion.</p>
English Language Proficiency	<p>All applicants must meet the Australian National University's English language requirements for graduate admission. Please refer to the ANU Policy Library for further details https://policies.anu.edu.au/ppl/document/ANUP_000408</p>
International Applicants	<p>International applicants must apply directly to the ANU. The entry requirements and application process for international applicants can be found on the ANU Medical School website: https://medicalschool.anu.edu.au/study/doctor-medicine-and-surgery-mchd/how-apply</p>

Scholarships	<p>The Australian National University offers a wide range of scholarships to current and future students to assist with the cost of their studies. Many of the scholarships on offer are funded by donors and benefactors, external organisations and the Australian Government. Please visit the ANU Scholarships Portal for details: http://www.anu.edu.au/students/scholarships-fees/scholarships</p> <p>Additional information about scholarships for medicine students can be found on the ANU Medical School website: https://medicalschoool.anu.edu.au/study/scholarships</p>
Open Days and Information Sessions	<p>Postgraduate Information Evening TBC</p> <p>ANU Open Day TBC</p> <p>Further information about open days and information sessions is available on the ANU website: www.anu.edu.au</p>

DEAKIN UNIVERSITY
SCHOOL OF MEDICINE

This information is correct at the time of publishing

Contact details:	Telephone	(03) 9251 7777
	Email	health-enquire@deakin.edu.au
	Web	https://www.deakin.edu.au/doctor-medicine
Places Available in 2020	145 (Up to 5% of domestic places will be held for Indigenous applicants who apply through the Indigenous Entry Stream).	
	CSP	93
	BMP	37
	International	Up to 15
Bachelor Degree/ GPA	<p>A minimum weighted GPA of 5.0 is required. The GPA is to be based on academic grades obtained during the final three full-time equivalent years of the most recent undergraduate degree. Years are progressively weighted x1, x2 and x3, to give greater weight to the most recent results.</p> <p>An Honours year (embedded or standalone) will be considered and may count as your final year in the GPA calculation.</p> <p>The completed undergraduate degree must be from an Australian university or a Higher Education Institution recognised by the Australian Qualifications Framework (AQF), or equivalent as deemed by Deakin University.</p> <p>Deakin recognises up to one year of credit towards the completion of your undergraduate degree. Deakin does not recognise 2-year bachelor degrees (accelerated degrees (3FTE) completed over 2 years are accepted).</p> <p>Any credit from an International Baccalaureate will also not be accepted.</p> <p>Early exit from a combined bachelor degree</p> <p>Applicants will meet Deakin University’s admission requirement if they have completed 3FTE when taking an early exit from a combined bachelor degree.</p> <p>If the applicant takes an early exit from the combined bachelor degree, the GPA will be recalculated and if applicable, made a conditional offer of a place. This is dependent on the successful completion and evidence via an official transcript for the single bachelor degree.</p> <p>Where applicants are in the final year of their degree, a GPA will be calculated based on at least 0.25FTE. However if less than 0.25FTE is available for the final year, these final year results will not be used in the GPA calculation. The GPA will then be calculated from the Final-minus-1 and Final-minus-2 years only.</p> <p>Submission of documentation to the University after the closing date for the purpose assessing qualifications will not be accepted. All documentation must be submitted with the application.</p>	
Currency of qualification	<p>Applicants are required to have completed their undergraduate degree within 10 years of their projected commencement date. Applicants whose undergraduate degree was completed outside this 10 year period may be considered for admission only if they have successfully completed the equivalent of one year of tertiary study (i.e. 1FTE) at Honours or Graduate Diploma level, or higher, at an Australian University or Higher Education Institution recognised by the Australian Qualifications Framework, or at a recognised International University as deemed by Deakin. This postgraduate study must have been completed at the time of application and also completed within the 10 years of the projected commencement date of the course.</p>	

GAMSAT	A minimum GAMSAT Overall Score of 50 with a minimum of 50 in each of the three Sections is required to be considered for interview.
Adjustments (Bonuses) / Special entry schemes	<p>Invitations to interview will be sent to a maximum of 220 applicants based on GAMSAT + GPA Score (50:50) with additional weighting for:</p> <ul style="list-style-type: none"> • Rural/Regional residency • Prior clinical experience in a health discipline • Demonstration of financial disadvantage • Work experience • Deakin study adjustment (bonus) <p>Please see pages 9 to 12 for more information.</p>
Indigenous Applicants	<p>Up to 5% of domestic places will be held for Aboriginal or Torres Strait Islander (ATSI) applicants who apply through the Indigenous Entry Stream (IES). ATSI applicants can apply either via GEMSAS or the IES.</p> <p>See school website for details: https://www.deakin.edu.au/doctor-medicine</p>
English Language Requirement	<p>Applicants who have completed their undergraduate studies within the last 2 years, at an institution where English is the language of instruction and assessment for the whole institution, are deemed to have met the English Language Requirements. Applicants who do not meet this requirement must satisfy the English Language Requirements (ELR) for Deakin Coursework Programs in order for their application to be considered.</p> <p>The ELR requirements can be satisfied in a number of ways, as outlined at the following link: https://policy.deakin.edu.au/document/view-current.php?id=161</p> <p>Applicants may be required to provide documentation confirming that they have met Deakin's ELR requirements upon receipt of an offer at Deakin.</p>
Interview	<p>A maximum of 220 applicants will be interviewed. Interviews will be held in Geelong during the week commencing 9 September 2019. Interviewees will be selected based on GAMSAT and weighted GPA (50:50). The ranking for interview will include additional adjustment (bonus) points for:</p> <ul style="list-style-type: none"> ○ Relevant Prior Clinical experience (4%); ○ Work Experience (2%); ○ Deakin Study adjustment (bonus) (4%); ○ Rural/Regional residency (City of Greater Geelong and ASGC-RA 2 (4%) ASGC-RA3-5 (8%); ○ Demonstration of financial disadvantage during undergraduate degree (2%). <p>Interviews will use the Multiple Mini Interview (MMI) format in which applicants are interviewed at up to 10 consecutive stations with 5 minutes for each interaction. Qualities to be assessed at interview include</p> <ul style="list-style-type: none"> • communication skills • commitment to rural and regional practice • evidence-based practice • self-directed learning • teamwork • motivation for a career in medicine

	<ul style="list-style-type: none"> • a commitment to social justice • professionalism • effective use of resources • health promotion
Offers	<p>The final ranked list, from which offers will be progressively made, is based on an entry score calculation which weights the GPA (25%), GAMSAT (25%) and Interview (50%). Additional adjustment (bonus) points, previously listed, will be included in this calculation. Offers will be made in early November 2019.</p> <p>Conditional Offers</p> <p>Offers for applicants in the final year of their degree will be conditional. Applicants who are in the process of completing their undergraduate degree MUST provide their finalised transcript to GEMSAS by 31 December 2019.</p> <p>Applicants who receive a conditional offer will have their overall GPA recalculated. Applicants will be expected to maintain or exceed their overall GPA used when shortlisted for an offer.</p> <ul style="list-style-type: none"> • An applicant whose overall GPA decreases by 0.4 or less, will have their offer confirmed. • An applicant whose GPA decreases by more than 0.4 or conditions are not met by the specified date on the offer letter the offer will be withdrawn. <p>Please note that deferrals are not permitted.</p>
International students	<p>International applicants may apply with GAMSAT or MCAT scores. The minimum GAMSAT score is at least 50 in each section and a score of at least 50 overall. The minimum score for MCAT is 125 in each section. GAMSAT and/or MCAT results must be obtained within 2 years prior to the application. Adjustments (bonuses) will be awarded for relevant prior clinical and/or work experience. Students who have undertaken their undergraduate studies in a non-English speaking country must, in addition, obtain a minimum overall IELTS score of 7.0 (with no band less than 7.0). Applicants, whose undergraduate degree was taught and assessed entirely in English, no more than 2 years prior to enrolment at Deakin, are considered as having met the English language requirement. A combination of GAMSAT/MCAT score, GPA score and adjustments (bonuses) will be taken into consideration when selecting applicants for interview.</p> <p>International applicants must apply directly to International Admissions at Deakin University : https://www.deakin.edu.au/doctor-medicine</p> <p>For more information, please use the above link.</p>
Open Days and Information Sessions	<p>Information Night</p> <p>Wednesday 10th April 2019 from 6.00pm at the Regional and Community Health Hub (Building DD), Waurm Ponds Campus, Pigdons Road.</p> <p>Open Day</p> <p>Sunday 18th August 2019 from 9.00am - 3.00pm: Deakin University, Geelong Waurm Ponds Campus, Pigdons Road.</p>

GRIFFITH UNIVERSITY
SCHOOL OF MEDICINE

Contact details:	Telephone	1800 677728
	Email	medicine@griffith.edu.au
	Web	https://www.griffith.edu.au/griffith-health/school-medicine
Places Available in 2020	CSP	100
	BMP	40
	B.Medical Science Pathway	60 (Includes 28.5% BMP places)
	International	Up to 30
Doctor of Medicine (MD)	<p>Domestic Applicants: Successful Applicants to Griffith University will be admitted to the Doctor of Medicine (MD), an AQF level 9 Masters extended degree</p> <p>International Applicants: For information: Phone +61 7 373 56425 or Web: www.griffith.edu.au/international</p>	
Campus and Place Type Preference	<p>Students will be placed at either the Gold Coast campus or the Sunshine Coast Health Institute Teaching Location* at the time of the offer round.</p> <p>At the time of application, applicants must specify the types of places (non-bonded CSP and/or bonded CSP (BMP) they wish to be considered for in preferred order. They must also note their preference order for the Gold Coast campus and the Sunshine Coast Health Institute Teaching Location. Please note that preferences will be considered, but not guaranteed as quotas apply.</p> <p>* Griffith University Bachelor of Medical Science Pathway students will not be allocated to the Sunshine Coast Health Institute Teaching Location</p>	
Key Degree	<p>Bachelor Degree</p> <ul style="list-style-type: none"> - Applicants must have achieved a minimum GPA of 5.0 in a completed bachelor degree or be in the final year of a bachelor degree (scheduled for completion by 31 December in the year of application) - Griffith recognises that some students may undertake other pathways from the standard 3 year and 4 year bachelor degrees, including completed standalone Honours, embedded Honours and completed Professional Honours. <p>Postgraduate Key Degrees</p> <ul style="list-style-type: none"> - Masters by Research Only complete by 31 July in the year of application - Masters by Coursework, or a combination of coursework and research complete by 31 July in the year of application - PhDs complete by 31 July in the year of application <p>Completion means the applicant completed all academic requirements for the qualification, and approval is given for the award to be granted.</p>	
GPA Calculation	<ul style="list-style-type: none"> - For a Bachelor degree, the GPA will be calculated using the GEMSAS grading schema and will be calculated over the final three years of full-time study. Applicants who are in the final year of a Bachelor degree at the time of application will have a GPA calculated over all grades available to date. - The GPA for a completed standalone Honours degree will have a final year GPA based on the classification awarded (as per the conversion table in this guide) <u>or subject results and best GPA used</u>. The balance of the GPA calculation will be based on the final two years of the Bachelor degree. - For an embedded Honours degree, the GPA will be calculated using the final year subject 	

results or the classification awarded (if completed) and the best GPA used. The balance of the GPA will be based on the 3rd and 2nd years of subject results.

- For a completed **Professional Honours** qualification, please contact Griffith University (medicine@griffith.edu.au).
- Completed **Masters by Research Only** (where the degree is entirely non-graded) will receive a GPA of 7.0 for the duration of equivalent full-time study (up to a maximum of two years). The balance of the GPA calculation will be based on the final one or two years of the next most recently completed key degree.
- Completed **Masters by Coursework, or a combination of coursework and research**, will have a GPA calculated from the graded components of the program for the duration of equivalent full-time years of study in the program, with the balance of the GPA calculation being based on the final one or two years of the next most recently completed key degree.
- Completed **PhDs** receive an overall GPA of 7.0.

Currency of qualification

The key degree must have been completed within 10 years of the projected commencement date. The year of completion is the year the applicant completed all academic requirements for the qualification, and approval is given for the award to be granted. Applicants whose key degree was completed outside the 10-year period are considered for admission if they have completed, with a passing GPA, the equivalent of 1 year's full time tertiary level studies within the past 10 years. This study does not need to be a completed program of study as long as the duration is equivalent to one year or more full time.

GAMSAT

Applicants must achieve a minimum score of 50 in each GAMSAT section, with an overall score of at least 50.

Aboriginal and Torres Strait Islander Applicants

Griffith upholds a commitment to support people of Aboriginal and Torres Strait Island descent to pursue a medical career.

The First Peoples Health Pathway is:

Qualification	Griffith University Health Related Degree	Other degree – including Griffith degrees not listed as health related
Required GPA	5 or higher	5 or higher
Required GAMSAT score	Not required, applicants do not need to sit GAMSAT	Minimum requirement overall score of 50 with no subscore less than 50
Application	Apply through GEMSAS, identifying as Indigenous and including Griffith University as a preference	Apply through GEMSAS, identifying as indigenous and including Griffith University as a preference
Next Step	Contact medicine@griffith.edu.au and provide GEMSAS application number	Contact medicine@griffith.edu.au and provide GEMSAS application number
GUMSAA Interview	Not required	Not required
First People applicant Interview	Applicants will be interviewed by a panel including representatives from GUMURRI (The Indigenous Support Unit) and the First Peoples Health Unit.	Applicants will be interviewed by a panel including representatives from GUMURRI (The Indigenous Support Unit) and the First Peoples Health Unit.

Rural Applicants	Griffith University Rural Priority Access Scheme (GURPAS): A proportion of the Griffith University medical intake will include students from a rural background RA2-5. Competitive applicants who meet the rural criteria will be given priority access to Griffith University Doctor of Medicine program.
International students	International applicants apply directly to Griffith University. For further information: Phone +61 7 373 56425 or Web: www.griffith.edu.au/international International students will be allocated the Gold Coast Campus.
Interview	<p>The interview or Griffith University Multiple Station Admissions Assessment (GUMSAA) is designed to assess personal qualities deemed desirable in medical students and medical practitioners and will take the form of scenario based, multi-station interviews.</p> <p>Applicants will be invited to GUMSAA based on an interview selections rank derived from a 50:50 combination of the unweighted GPA (converted to a percentage) and the overall GAMSAT score. Entry is competitive and a GPA required for interview selection is likely to be significantly higher than 5.0 out of 7.0. A high GAMSAT can offset a slightly lower GPA and vice versa. As a result of using a 50:50 GPA/GAMSAT selections methodology, there is no discrete cut-off point for GAMSAT</p> <p>GUMSAA for 2020 entry is scheduled to be held on Wednesday September 18th 2019. GUMSAA will be held on the Gold Coast campus.</p> <p>NOTE: Griffith University will not offer places in Medicine to any candidate who has achieved an interview score of more than one standard deviation below the mean score, wherever the interview was undertaken.</p>
Offers	<p>Offers are made based on an overall ranking of interviewed applicants. This ranking is calculated as 50:50 combination of the interview selections rank (50:50 GPA/GAMSAT) and the overall Interview score (converted to a percentage).</p> <p>The main round of offers will be made in early November, but if required, 'top up' offers will be made in subsequent offer rounds.</p> <p>The offer letter will state both place type and campus/teaching location.</p> <p>Applicants who are in the final year of a Bachelor degree at the time offers are made will receive an offer conditional upon them completing their degree before December 31st while maintaining a GPA above the minimum requirement of 5.00.</p>
Other requirements	<p>Orientation will be in mid-January and prior to this date students are required to:</p> <ul style="list-style-type: none"> ○ provide documentation regarding vaccination status; ○ complete a Nationally Accredited Training Provider Registered First Aid and CPR Course; ○ obtain a National Police Check Certificate; and ○ obtain a Queensland Blue Card. <p>See https://www.griffith.edu.au/griffith-health/fit-for-placement/schools/clinical-medicine for further information.</p>
English Language Proficiency	<p>If English is not your first language to meet the English Language Proficiency requirements applicants must:</p> <ul style="list-style-type: none"> - Have successfully completed bachelor level study or higher for at least two years in the past five years from one of the following countries ○ Australia ○ Canada ○ New Zealand

	<ul style="list-style-type: none"> ○ Republic of Ireland ○ South Africa ○ United Kingdom ○ United States of America. <p>Or</p> <p>- Have a minimum overall band score of 7.0 on IELTS (Academic) with no sub-score of less than 7.0. Results must be no more than 2 years prior to enrolment.</p>
Deferrals	<p>Griffith only allows the deferral of the commencement of study for one year when there are documented exceptional circumstances that could not have been foreseen at the time of application.</p> <p>All deferrals must be requested in writing and will be reviewed on a case-by-case basis by the Dean of Medicine (medicine@griffith.edu.au).</p>
Failure to Enrol	<p>An offer of a place is only available for that year's intake. An applicant who does not respond to their offer, or accepts their offer but does not enrol, must reapply to undertake the program in a subsequent year.</p>
Open day and information sessions	<p>Pathways to Medicine Evenings</p> <p>Gold Coast Monday 13th May 2019 5:30pm – 8:00pm Venue: G40 Lecture Theatre 1, Gold Coast Campus</p> <p>Brisbane Tuesday 14th May 2019 5:30pm – 8:00pm Venue: Qld College of Art (QCA) Lecture Theatre S05_2.04 South Bank Campus</p> <p>Griffith University Open Day Griffith Open Day will be on Sunday 11th August 2019 at our Gold Coast, Nathan and South Bank campuses.</p>

MACQUARIE UNIVERSITY

Contact details:	Telephone	02 9850 4538
	Email	medicine@mq.edu.au
	Web	http://www.mq.edu.au/study/medicine
Places Available in 2020	These quotas are subject to change	
	Full-fee	40 places
	International	20 places
Doctor of Medicine selection policies	All applicants should refer to the Macquarie MD website for detailed information on the program including selection and program policies.	
Australian and international clinical placements	The Macquarie MD requires students to attend clinical placements in both Australian and international settings.	
Bachelor degree and GPA	<p>Bachelor degree</p> <p>Applicants must have completed a bachelor degree or be in their final year of a bachelor degree (scheduled for completion by 31 December in the year of application). The bachelor degree must be:</p> <ul style="list-style-type: none">- A level 7 Australian Qualifications Framework (AQF) qualification, or an equivalent overseas degree listed in the National Office of Overseas Skills Recognition (AEI-NOOSR) Guide <p>Bachelor degrees must be completed less than 10 years from intended enrolment unless the applicant meets accepted postgraduate study requirements.</p> <p>Only the following postgraduate study is accepted:</p> <ul style="list-style-type: none">- Graduate Diploma- Coursework Masters- Research Masters- PhD <p>Postgraduate coursework (Graduate Diploma and Coursework Masters) must be:</p> <ul style="list-style-type: none">- Complete or scheduled for completion by 31 December in the year of application- Completed less than 10 years from intended enrolment <p>Postgraduate research (Research Masters and PhD) must be:</p> <ul style="list-style-type: none">- Complete at the time of application- Completed less than 10 years from intended enrolment <p>Grade Point Average (GPA)</p> <p>Applicants are required to have achieved:</p> <ul style="list-style-type: none">- A minimum weighted GPA of 5.0 out of 7.0 to be considered for interview. <p>Note that entry is competitive and a GPA required for interview selection is likely to be significantly higher than 5.0 out of 7.0.</p> <p>GPA is calculated through consideration of relevant tertiary transcripts from completed programs or programs scheduled for completion by 31 December in the year of application.</p> <p>The GPA calculation considers full time equivalent (FTE) years of study. The weightings used give higher level results greater value.</p>	

	<p>Applicants with bachelor degree only will have their GPA calculated with the following weightings:</p> <ul style="list-style-type: none"> - Final year (most recent FTE year of study) = x 3 - Final-1 (second most recent FTE year of study) = x 2 - Final-2 (third most recent FTE year of study) = x 1 <p>Applicants with a bachelor degree and standalone honours year will have their GPA calculated with the following weightings:</p> <ul style="list-style-type: none"> - Final year (honours) = x 3 - Final-1 (most recent FTE year of bachelor degree) = x 2 - Final-2 (second most recent FTE year of bachelor degree) = x 1 <p>Applicants with postgraduate coursework (Graduate Diploma and Masters) will have their GPA calculated with the following weightings:</p> <ul style="list-style-type: none"> - Postgraduate coursework (considered as whole) = x 3 - Final-1 (most recent FTE year of bachelor degree or standalone honours year) = x 2 - Final-2 (second most recent FTE year of bachelor degree or most recent year of bachelor degree if honours is used) = x 1 <p>Applicants with completed postgraduate research (Research Masters or PhD) will have their GPA calculated with the following weightings:</p> <ul style="list-style-type: none"> - Postgraduate research (considered as whole, given maximum GPA value of 7.0) = x 3 - Final-1 (most recent FTE year of bachelor degree or standalone honours year) = x 2 - Final-2 (second most recent FTE year of bachelor degree or most recent year of bachelor degree if honours is used) = x 1 <p>Note that non-award units will not be used as part of the GPA calculation.</p>
GAMSAT	<p>All domestic applicants must submit GAMSAT scores of:</p> <ul style="list-style-type: none"> - A minimum overall score of 50 - A minimum of 50 in each of the three sections <p>GAMSAT scores submitted must be within two years of intended enrolment.</p> <p>Please note that an alternative Indigenous Pathway is also available, with details provided in a later section.</p>
Prerequisites	<p>Applicants must have successfully completed approved prerequisite tertiary units or groups of units in:</p> <ul style="list-style-type: none"> - Human Anatomy - Human Physiology <p>Prerequisites must be completed less than 10 years from intended enrolment.</p> <p>Non-award units can be used to meet prerequisites but will not be used as part of the GPA calculation.</p> <p>Only approved prerequisite units will be accepted. Assessment of units will take place in April. To check if you have met the prerequisite study requirements for the Macquarie MD visit Prerequisite Checker.</p>
Personal Statement	<p>All applicants must submit a Personal Statement. The personal statement involves responding to a series of targeted questions relating to the program.</p> <p>Personal Statements are not graded but are evaluated as either satisfactory or unsatisfactory. Only applicants who have met eligibility requirements and have satisfactory Personal Statements can progress to interview.</p>

Currency of qualification	<p>Qualifications considered for admission must have been completed within 10 years of intended enrolment.</p> <p>Prerequisite units must also have been completed within 10 years of intended enrolment.</p>
English language requirements	<p>Domestic and international applicants will meet English language requirements if their secondary and tertiary qualification(s) have been taught and assessed in English in a country where English is the native or first language (Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom, or United States of America). Please see the Macquarie MD website for further information: http://www.mq.edu.au/study/medicine</p> <p>IELTS</p> <p>Domestic and international applicants who do not meet the above English language requirements must provide evidence of meeting the following International English Language Testing System (IELTS) scores:</p> <ul style="list-style-type: none"> - A minimum overall score of 7.0 - A minimum score of 7.0 in each band <p>Minimum IELTS scores must be achieved in one sitting of the test less than two years from intended enrolment.</p>
Bonus Points	<p>A 3% bonus will be applied to the weighted GPA of the following cohorts:</p> <ul style="list-style-type: none"> - Aboriginal and Torres Strait Islander applicants - Rural applicants - Macquarie University Bachelor of Clinical Science applicants <p>Students who belong to more than one of the above cohorts will have a maximum 5% bonus applied to their weighted GPA. Please note that bonus points are not available to International applicants.</p>
Indigenous Pathway	<p>All Aboriginal and Torres Strait Islander applicants will have a 3% bonus applied to their weighted GPA.</p> <p>Aboriginal and Torres Strait Islander applicants can choose to apply through the standard pathway and / or the Indigenous Pathway. The Indigenous Pathway offers:</p> <ul style="list-style-type: none"> o Case-by-case application consideration for interview and offer o Optional submission of GAMSAT results o Support through the interview process <p>To be eligible for the Indigenous Pathway applicants are required to demonstrate:</p> <ul style="list-style-type: none"> o Proof of Aboriginality (Macquarie University will liaise directly with candidates who identify as Aboriginal or Torres Strait Islander). Please note that this pathway is not available to International applicants.
Campus and place type preference	<p>Macquarie University Balaclava Road, North Ryde NSW, 2109, Australia</p> <p>All places in the Macquarie University Doctor of Medicine are full-fee.</p> <p>The MD program requires students to attend clinical placements in both Australian and international settings.</p>
Interview	<p>Interview selection</p> <p>Applicants will be ranked and selected for interview based on the following criteria:</p> <ul style="list-style-type: none"> - Meeting minimum eligibility requirements outlined above - 50% weighted GPA

	<ul style="list-style-type: none"> - 50% GAMSAT (50% MCAT for international applicants residing outside of Australia only) - Personal statement evaluated as satisfactory <p>Up to 20 interview places will be reserved for Macquarie University Bachelor of Clinical Science graduates / final year students.</p> <p>Interview format</p> <p>Interviews will be conducted in the Multiple Mini Interview (MMI) format, which will see applicants rotate through a series of short interview stations.</p> <p>International applicants will be offered a modified MMI conducted in-person or via videoconference.</p> <p>MMIs for domestic applicants will be on Saturday 28 September 2019.</p>
Offer	<p>Offer selection</p> <p>Applicants will be ranked and selected for offer based on the following:</p> <ul style="list-style-type: none"> - 50% GAMSAT (50% MCAT for international applicants residing outside of Australia only) - 50% MMI - GPA will be used as a tie-breaker should applicants be equally ranked after GAMSAT / MCAT and MMI results. <p>Indigenous applicants will be selected on a case-by-case basis.</p> <p>Conditional offers</p> <p>If an offer is made where a degree or prerequisite units are not yet complete, the offer will be conditional. To be made a full offer, study must be complete by the 31 December in the year of application and a minimum GPA of 5.0 out of 7.0 must be maintained.</p> <p>If conditions are not met by the specified date in the offer letter, the offer will be withdrawn. Applicants applying based on a combined degree must complete both awards to have their offer confirmed.</p>
International applicants	<p>International applicants apply directly to Macquarie University.</p> <p>Visit http://www.mq.edu.au/study/medicine for more information.</p> <p>International applicants must meet the same minimum entry requirements as domestic applicants with three variations:</p> <ul style="list-style-type: none"> - MCAT scores as indicated below will be accepted as an alternative to GAMSAT scores (for international applicants residing outside of Australia) - IELTS scores may be required, as per the 'English language requirements' section above - Modified MMI <p>MCAT</p> <p>International applicants residing outside of Australia can choose to submit Medical College Admissions Test (MCAT) scores or GAMSAT scores. International applicants residing in Australia at the time of application must submit GAMSAT scores.</p> <p>MCAT scores will be used and weighted for selection for interview and offer in the same way that GAMSAT scores are used (see 'Interview' and 'Offer' sections above).</p> <p>MCAT scores submitted must satisfy:</p> <ul style="list-style-type: none"> - A minimum total score of 500 - Completion less than three years from intended enrolment <p>IELTS</p>

Some international applicants will be required to submit IELTS scores. See 'English language requirements' section above for details.

Interviews

International applicants who receive an interview will be offered a modified MMI conducted in-person or via videoconference. MMIs will take place on a rolling basis.

Offers

Successful international applicants will be notified by Macquarie University on a rolling basis up to October 2019.

Open days and information session

Macquarie MD Information Evening: Tuesday 30 April 2019, 6.00pm – 7.30pm.

Open Day: Saturday 17 August 2019, 10.00am to 4.00pm

**THE UNIVERSITY OF MELBOURNE
MELBOURNE MEDICAL SCHOOL**

Contact details:	Telephone	(03) 8344 5890
	Email	study-health@unimelb.edu.au
	Web	https://study.unimelb.edu.au/find/courses/graduate/doctor-of-medicine/
Places available in 2020	These quotas are subject to change	
	CSP	*169 (These places are also available to eligible Chancellor's Scholars applicants).
	BMP	*68
	Domestic full-fee and International full-fee	*Up to 95 (These places are also available to eligible Guaranteed Entry Full-Fee applicants).
Melbourne MD Selection Policies	All applicants to Melbourne are asked to refer to the MD Selection Guidelines https://study.unimelb.edu.au/find/courses/graduate/doctor-of-medicine/entry-requirements/#entry-requirements for detailed selection policy information.	
Extended Rural Cohort (ERC) stream	<p>Thirty (30) ERC places are allocated from the domestic quotas above; they are not additional places.</p> <p>Students will be allocated to the ERC at the time of offer. The ERC program relates primarily to Year 3. ERC students will undertake a significant portion of their clinical education in hospitals and community-based practices within the Northern Victoria Regional Medical Education Network. This network brings together the clinical resources of Monash University and the University of Melbourne in northern Victoria.</p> <p>Preference will be given to applicants who express a particular interest in the program. Note however that any domestic applicant may be offered an ERC place. Students offered a place as part of the ERC will not be able to transfer into any other type of place. International students are not eligible for admission to the ERC stream.</p> <p>For further information go to https://medicine.unimelb.edu.au/study/current-student-resources/md-students-resources/clinical-schools/clinical-schools-zones/rural-zone/extended-rural-cohort</p>	
Clinical School Zone allocation	<p>The University of Melbourne has seven clinical schools where MD students will spend the bulk of the clinical years of the course. These schools are grouped into three clinical school zones. All successful applicants will be allocated to a particular zone at the time of offer into the course. This allocation cannot be changed and appeals will not be considered. Clinical school zone allocation will be based on randomised order and applicant preference (with the exception of applicants who receive preferential entry on the basis of their rural background, in which case the University reserves the right to allocate these applicants to a rural zone).</p> <p>Applicants are advised to read through the Clinical School Zone and Clinical School Allocation policy for more information https://medicine.unimelb.edu.au/study/current-student-resources/mms-students-resources/policies,-procedures-and-forms</p> <p>Further information about the individual clinical schools can be found here: http://medicine.unimelb.edu.au/study/current-student-resources/md-students-resources/clinical-schools/clinical-schools-zones</p>	
Bachelor Degree/ GPA/ GAMSAT	A minimum GPA of 5 and a minimum GAMSAT Score of 50 in each of the three sections of the GAMSAT is required. These are minimum requirements only, and selection into the course is highly competitive.	

	<p>Applicants are ranked for interview based on the combined weighted GPA and the GAMSAT score (where each of the three sections is weighted equally). The GPA and GAMSAT score are weighted equally to create the ranked list for interview.</p> <p>The Grade Point Average (GPA) is measured by considering the last 3 years of the applicant’s undergraduate coursework studies (only including Honours where the Honours Degree is completed by mid-year in the year of application, and the results are available for selection). GPA years will be weighted: the final-minus-2 x 1, the final-minus-1 x 2 and the final x 2.</p> <p>If an Honours degree is not completed by mid-year in the year of application, then GPA weightings will be applied by weighting the first of the final three pre-honours undergraduate years, as outlined above.</p> <p>An undergraduate degree is defined as a degree of at least three years duration when studied full-time, or equivalent, from a recognised university. However, accelerated entry and conversion degrees may be accepted, depending on the level and extent of credited study, at the discretion of the selection committee. GPAs may be adjusted in the applicant’s favour for applicants with a completed PhD or Masters qualification in a related discipline (quotas apply).</p>
<p>Currency of qualification</p>	<p>Undergraduate degree must have been completed within 10 years of commencing the Doctor of Medicine. For applicants whose most recently completed undergraduate degree was completed 10 or more years before 1 January 2020 in the year of application, a Graduate Diploma, Master or PhD degree, or equivalent, must have been completed within the last 10 years.</p> <p>Prerequisites subjects must also have been completed within the 10 years prior to commencement of the Doctor of Medicine. For example, if applying for the 2020 intake, then prerequisite subjects must have been completed from 2010 onwards.</p>
<p>MCAT</p>	<p>Only international students who reside outside of Australia at the time of application may apply using an MCAT score.</p>
<p>Aboriginal and/or Torres Strait Islander Applicants</p>	<p>Applicants of Aboriginal and/or Torres Strait Islander descent are given priority access to Medicine at the University of Melbourne under the Indigenous MD Student Entry Pathway. Verified indigenous applicants are required to meet minimum selection criteria only. Applicants eligible for the Indigenous Pathway will not be subject to ranking and will be selected into the program if the following minimum requirements are met: prerequisite subjects passed; GPA of 5.0 or above; and Multi Mini Interviews passed. Indigenous applicants who satisfy these minimum requirements will be invited to attend an interview with a panel chaired by the Associate Dean (Indigenous) of the Faculty (or their nominee), and other appropriate Indigenous representatives.</p> <p>Eligible Indigenous applicants who wish to apply to the University of Melbourne under the Pathway will be required to submit a direct application via the University’s formstack: https://theuniversityofmelbourne.formstack.com/forms/2020_atsi</p> <p>Closing date for direct applications: 5:00pm AEST on Friday 31st May 2019.</p> <p>Indigenous applicants are not required to apply via GEMSAS nor sit the GAMSAT if the University of Melbourne is their only preference. Indigenous applicants wishing to be considered by other medical schools (in addition to the University of Melbourne) should consult the relevant entries in this Guide for application details.</p> <p>Prospective Indigenous applicants are strongly encouraged to make contact with the University of Melbourne (via email to mdhs-indigenous-admissions@unimelb.edu.au) for advice about the direct application process and our Indigenous MD Student Entry Pathway.</p>

<p>Special entry schemes</p>	<p>Graduate Access Melbourne (GAM)</p> <p>Applicants approved for the Graduate Access Melbourne scheme may be re-ranked based on their level of disadvantage. GAM applications must be submitted direct to the University of Melbourne by the closing date for applications. The online GAM application form can be accessed at https://theuniversityofmelbourne.formstack.com/forms/2020_graduate_access_melbourne</p> <p>To check your eligibility for Graduate Access Melbourne, please go to: https://study.unimelb.edu.au/how-to-apply/special-entry-access-schemes/access-melbourne-graduate</p> <p>We do not accept the hard copy application form found on the University of Melbourne Graduate Access Melbourne website. All Graduate Access Melbourne applications for the MD must be submitted through the GAM formstack link above.</p> <p>Guaranteed entry</p> <p>Applicants eligible for entry under the Guaranteed Entry scheme should refer to https://study.unimelb.edu.au/find/courses/graduate/doctor-of-medicine/how-to-apply/#apply-now for further information, and for details regarding the application process. Guaranteed entry applicants must submit an online application directly to the University of Melbourne in order to be eligible for offer. The application form can be accessed at https://theuniversityofmelbourne.formstack.com/forms/2020_guaranteed_entry</p> <p>Important note:</p> <ul style="list-style-type: none"> • All subject prerequisites must be met on the first attempt (for students who commenced their undergraduate degree after the 2016 intake), and all guaranteed entry applicants will be interviewed and must also demonstrate satisfactory performance at interview. To check your eligibility for the Guaranteed Entry Scheme, please go to https://students.unimelb.edu.au/future/graduate-study-for-current-students/guaranteed-entry • Full-Fee guaranteed entry applicants must also meet minimum Weighted Average Mark requirements. • Full-Fee Guaranteed entry applicants who wish to be considered for other fee type places, must apply via the standard GEMSAS process. These applications will be considered separately.
<p>Rural entry</p>	<p>The Melbourne Medical School at the University of Melbourne recognises the importance of building and sustaining a rural medical workforce and will therefore offer priority access to at least 27% of Commonwealth Supported places in the Melbourne MD to applicants from a rural background, subject to the standard selection policies.</p> <p>For further information on rurality classification please refer to page 21 of this Guide.</p>
<p>Interview</p>	<p>Multi Mini Interviews (MMI): The interview component will be an eight station Multiple Mini Interview. Each station takes five minutes and has a single interviewer.</p> <p>The MMI aims to assess non-academic qualities including cultural sensitivity, maturity, collaboration, reliability and communication skills.</p> <p>The stations could include practical tasks, commenting on short films, or explaining your thinking.</p> <p>Further important information on how the MMI is applied to guaranteed entry and GEMSAS applications can be found here: https://study.unimelb.edu.au/find/courses/graduate/doctor-of-medicine/entry-requirements/#entry-requirements</p>

Offers	<p>Course offers will be made on the basis of a combined ranked list where ranks by GAMSAT will be weighted by 25%, GPA by 25%, and interview by 50%. Eligible Guaranteed Entry and Indigenous applications will not be subject to ranking. Eligible rural background applicants may be selected above higher-ranked applicants, in order to satisfy the University's rural-background quota.</p>
Conditional offers	<p>If an offer is made where a degree or prerequisite subjects are not yet complete, the offer will be conditional. When the degree is completed and the final results are received a final GPA will be calculated. Applicants will be expected to maintain or exceed the GPA used when shortlisted for interview. An applicant whose final GPA drops, but only by 0.3 or less, will in most cases have their offer confirmed. If conditions aren't met by the specified date on the offer letter the offer will be withdrawn.</p> <p>Applicants enrolled in a combined degree who receive a conditional offer for a place at the University of Melbourne based on that combined degree, must complete both awards in order to have their offer confirmed.</p> <p>For further information, refer to the MD Selection Guidelines: https://study.unimelb.edu.au/find/courses/graduate/doctor-of-medicine/entry-requirements/</p>
Prerequisite subjects and equivalents	<p>The three prerequisite subjects are anatomy, physiology and biochemistry successfully completed at second year undergraduate level.</p> <p>A table of approved prerequisite equivalent subjects can be found at: http://mdhs-study.unimelb.edu.au/prerequisites</p> <p>If the subjects you have studied are not included in the published lists, please review the instructions on how to have your subjects assessed (available on the prerequisite website). Applicants who submit complete documentation by Friday 3rd May 2019 will be advised of the subject equivalence before the closing date for applications. Submissions received after this date will take three weeks to be processed.</p> <p>Applicants who have not submitted documentation for assessment by the end of May OR have not demonstrated equivalence as part of their GEMSAS application (e.g. evidence of relevant completed subjects) will be deemed to have failed the prerequisite requirements and will not be eligible for selection into the MD.</p> <p>If you are going to enrol in one or more subjects from the list of approved prerequisites subjects in semester two in the year of application, you are still eligible to list University of Melbourne as one of your preferences. However, you must enrol in your prerequisite subjects by the end of July in the year of application, and you must list the subjects you intend to enrol in, when you complete the Education section of the GEMSAS online Application Form. GEMSAS will be able to retrieve your enrolment records through Automated Results Transfer System (if your institution uses ARTS) at that time, but can only do so if you have listed them in the application or advised GEMSAS at info@gemsas.edu.au by 31st July.</p> <p>Applicants enrolling in prerequisite subjects in 2019 must have results available by Sunday 5th January 2020. Applicants should confirm with their enrolling institution that results will be available by this date. If results will not be available, applicants should apply for the 2021 intake of the MD.</p> <p>Prerequisite subjects must have been completed within 10 years prior to commencement of the Doctor of Medicine.</p>
Selection Criteria	<p>For detailed selection criteria, refer to the University of Melbourne website https://study.unimelb.edu.au/find/courses/graduate/doctor-of-medicine/ OR the University Handbook: https://handbook.unimelb.edu.au/courses/mc-dmed</p>
Core Participation Requirements	<p>All applicants must familiarise themselves with the Doctor of Medicine <i>Core Participation Requirements</i> before applying to enter the MD at Melbourne. These can be found on the</p>

	<p>following website: http://medicine.unimelb.edu.au/study/current-student-resources/mms-students-resources/policies,-procedures-and-forms This document outlines the aptitude required to achieve the necessary attributes to progress through the course.</p> <p>All successful applicants will be asked to acknowledge that they have read and understood the Core Participation Requirements of the MD before commencing the course.</p>
<p>International students</p>	<p>International students may apply with either a score from GAMSAT or MCAT. International applicants with an MCAT cannot be considered if they are residing in Australia at the time of application (these applicants must apply with GAMSAT).</p> <p>Applicants who use the MCAT, must achieve a minimum score of at least 492 in order to be considered eligible for entry.</p> <p>Applicants who have undertaken their undergraduate studies in a language other than English should consult this website for information about minimum English language requirements at the University of Melbourne: https://study.unimelb.edu.au/how-to-apply/english-language-requirements/graduate-english-language-requirements</p> <p>The Melbourne Medical School Doctor of Medicine International Admissions Guide can be found here: https://study.unimelb.edu.au/find/courses/graduate/doctor-of-medicine/how-to-apply/</p>
<p>English Language Proficiency</p>	<p>Domestic applicants who have completed their undergraduate studies within the last 2 years, at an institution where the degree was taught and assessed in English, are deemed to have met the English Language Requirements.</p> <p>Applicants who have not completed undergraduate studies in English within the past 2 years can satisfy the English Language Requirements in a number of ways, as outlined on the website, and must provide evidence to support this upon receipt of an offer at the University of Melbourne: https://study.unimelb.edu.au/how-to-apply/english-language-requirements/graduate-english-language-requirements</p>
<p>Open Days and Information Sessions</p>	<p>University Open Day: Sunday 18th August 2019</p> <p>For further updates and details of Information Sessions refer to: https://mdhs.unimelb.edu.au/study/meet-us</p>

THE UNIVERSITY OF NOTRE DAME AUSTRALIA
SCHOOL OF MEDICINE, FREMANTLE

The information detailed below only applies to The University of Notre Dame Australia, Fremantle.
 Applicants to The University of Notre Dame Australia, Sydney, must read the separate section contained in this Guide.

The Objects of The University of Notre Dame Australia are:	a. The provision of university education, within a context of Catholic faith and values; and b. The provision of an excellent standard of: <ol style="list-style-type: none"> i. teaching, scholarship and research; ii. training for the professions; and iii. pastoral care for its students. 						
Contact details:	<table border="1"> <tr> <td>Telephone</td> <td>(08) 9433 0537</td> </tr> <tr> <td>Email</td> <td>fremantle.admissions@nd.edu.au</td> </tr> <tr> <td>Web</td> <td>https://www.notredame.edu.au/programs/fremantle/school-of-medicine/postgraduate/doctor-of-medicine</td> </tr> </table>	Telephone	(08) 9433 0537	Email	fremantle.admissions@nd.edu.au	Web	https://www.notredame.edu.au/programs/fremantle/school-of-medicine/postgraduate/doctor-of-medicine

Web	https://www.notredame.edu.au/programs/fremantle/school-of-medicine/postgraduate/doctor-of-medicine						
Places Available in 2020*	<p>*The expected number of places available for the Doctor of Medicine (MD) in 2020 is subject to change.</p> <table border="1"> <tr> <td>CSP</td> <td>71</td> </tr> <tr> <td>BMP</td> <td>29</td> </tr> </table>	CSP	71	BMP	29		
CSP	71						
BMP	29						
Fee-type and Quotas	<p>Applicants must specify which fee-type places they are applying for. Applicants will not be considered for places they have not selected. Offers will be made in the following order: CSP first and BMP second.</p>						
Change of Fee-Type Preferences	<p>No fee-type changes whatsoever will be allowed for Commonwealth Support (bonded or non-bonded) places.</p>						
No Transfer of Offer between Notre Dame's Fremantle and Sydney campuses.	<p>Prior to submission of university preferences, each applicant must give careful consideration to the Notre Dame Campus to which they are applying.</p> <p>Under no circumstances will any offer of a place to a new commencing student be transferable between Notre Dame's Fremantle and Sydney campuses.</p>						
Selection Process	<p>Candidates are selected for admission on the basis of the following criteria:</p> <ul style="list-style-type: none"> • Notre Dame Portfolio: Personal qualities, motivation to study medicine and to study at Notre Dame Fremantle; • GAMSAT Overall Score: Applicants must achieve an overall GAMSAT score of at least 50; • Grade Point Average (GPA): Applicants must achieve an overall GPA score of at least 5.2; and • Interview (Multi Mini Interview). 						
Qualifying Bachelor Degree	<p>Applicants must have completed, or be in the final year of a minimum three year full-time equivalent (FTE) undergraduate degree (including an Honours year if applicable.)</p> <p>The following degrees may also be used as qualifying degrees, subject to the conditions stated:</p> <p><u>Vertical Double/ Combined Degrees</u></p> <p>An undergraduate/postgraduate combined degree consisting of at least a two year undergraduate plus at least one year postgraduate degree must be completed by 31 December 2019.</p> <p>Completion of only the undergraduate component of the overall combined undergraduate/postgraduate degree will be deemed insufficient, unless the applicant has been approved by the conferring institution to exit the qualification early with at least a 3-year FTE</p>						

Degree. Where an undergraduate/postgraduate degree has been used as the qualifying undergraduate degree, and it is the most recent study undertaken, all available units will be used in calculating the GPA.

Accelerated degrees

An accelerated degree consists of three trimesters per year completed in two years. Applicants in their final year of an accelerated degree must be due to complete their degree by 31 December 2019. Where an accelerated degree is later completed as a standard duration undergraduate degree, the most recent three years of study will be used in the GPA calculation.

The following degrees cannot be used as qualifying degrees

Conversion degrees will not be used in the GPA calculation and cannot be used as a qualifying degree.

Applicants in the final year of study of qualifying degree

Applicants who apply using their current enrolled minimum 3-year full-time equivalent (FTE) undergraduate degree will be expected to successfully complete all requirements of the degree, including any Study Abroad components, as at 31 December 2019. Where deferred or supplementary exams are scheduled after 31 December 2019, the applicant will be deemed not to have successfully completed all requirements of the degree as at 31 December 2019. As such, applicants must note the stipulated deadlines carefully if and when requesting deferred or supplementary exams. Where an applicant is in the final year of study, the final-year GPA will be calculated based on the completed units within their final year. For example, if 0.25FTE units have been completed and the applicant is expected to complete 0.75FTE that year in order to complete their degree, their final year GPA will be calculated using 0.25FTE of units. Offers to successful candidates completing their degree in 2019 will be conditional upon maintenance of a competitive GPA and documentary evidence to GEMSAS of degree completion prior to 31 December 2019. Where relevant, this documentary evidence includes results from all Study Abroad components of their degree. As such, applicants must note their international institution's timeframe for supplying results if they are taking part in Study Abroad.

GPA Calculation

An applicant's GPA will, subject to the exclusions below, be calculated on the most recent 3-FTE years of study of completed/ completing degrees at an AQF level 7 or above. All grades/results (including fail grades, if applicable) from the most recent 3-FTE years of completed/ completing study will be used.

Results used for the GPA calculation must contribute towards the degree, i.e. units completed that are not part of the awarding degree, will not be used for GPA calculations.

GPA's will be calculated using study at Bachelor, Honours (excluding clinical and professional honours), Graduate Diploma, and Masters by coursework only. Graduate Diploma and Masters by coursework qualifications must be completed by 31 July 2019 to be used in the GPA calculation.

Graduate Certificate, Masters by research, Doctoral Degrees, clinical and professional honours and study below bachelor AQF level 7 will not be considered for the purpose of GPA calculation.

Qualifications must be completed at a TEQSA accredited institution (or for equivalent international qualifications, defined by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR)).

For a Bachelor and Honours degrees, GPA years will be progressively weighted Final-minus-2 x 1, Final-minus-1 x 2 and Final x 3, to give greatest weight to the most recent results.

	<p>If Graduate Diploma and Masters by Coursework study is to be included in an applicant's GPA calculation, the GPA calculation will not be weighted. The results from each of an applicant's three most recent years of eligible study would be of equal weight.</p> <p>For more information regarding GPA calculations and this terminology please refer to the GPA Guides on the GEMSAS Website: http://www.gemsas.edu.au/gpa-calculations/</p> <p>Recognition will be given to higher degrees of Masters by research or Doctoral Degrees completed by 31 July 2019 through the scoring on the Notre Dame Portfolio. These qualifications will not be used for the purposes of GPA calculations.</p>
Currency of Qualification	<p>Notre Dame requires applicants to have their qualifying degrees completed after 31 May 2009.</p> <p>Applicants whose qualifying degrees were completed before 31 May 2009, must have, between 31 May 2009 and 31 July 2019, successfully completed the equivalent of one year's full-time tertiary studies at Bachelor level or higher as defined by the Australian Qualifications Framework (AQF) or for international qualifications, defined by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR).</p>
Application Process	<p>All applicants must complete the online GEMSAS Application inclusive of the embedded Notre Dame Portfolio.</p> <p>The Notre Dame Portfolio must be completed irrespective of the ranking of Notre Dame Fremantle in the GEMSAS application. Applicants who fail to submit a Notre Dame Portfolio will not be considered for a place.</p> <p>As part of the Notre Dame Portfolio, applicants MUST complete the Personal Statement section (on-line). In this, applicants will be asked to outline their motivation for pursuing a career in Medicine and for studying at Notre Dame, including their understanding of and respect for the Objects of the University. Applicants who fail to submit a Personal Statement as part of the Notre Dame Portfolio will not be considered for a place.</p> <p>The Notre Dame Portfolio may take time to complete and it is recommended that applicants commence preparation early and submit well before the closing date.</p> <p>A Notre Dame Portfolio template and guide will be available from the Notre Dame website from 30 April 2019 at https://www.notredame.edu.au/about/schools/fremantle/medicine/how-to-apply and applicants are strongly encouraged to consider this template and guide when completing the Notre Dame Portfolio.</p> <p>It is the responsibility of the applicant to review their application BEFORE submission. STRICTLY no changes can be made once submitted, with the exception of updating verification contact information. Verification contact detail changes should only be requested if the verifier has updated contact details or is no longer able to verify experience due to unforeseen circumstances outside of the applicant's control. All verification contact details should be finalised before the submission of your portfolio.</p> <p>To update verification contact details please contact the Notre Dame Fremantle Admissions Office at fremantle.admissions@nd.edu.au. The final date for changing verification contact details is Friday 30 August 2019. It is the responsibility of the applicant to provide this information to both the Fremantle and Sydney campuses (if the applicant has nominated both the Fremantle and Sydney campuses as a preference). To update verification contact details for The University of Notre Dame Australia, Sydney, please contact the Sydney Admissions Office at sydney.admissions@nd.edu.au.</p>
Higher Degrees (Doctoral Degrees & Masters)	<p>Doctoral Degrees or Masters by research completed by 31 July 2019 will be recognised through the scoring on the Notre Dame Portfolio.</p> <p>For the purpose of portfolio scoring, combined undergraduate/postgraduate degrees will not be awarded recognition.</p>

Aboriginal and Torres Strait Islander Applicants	<p>Aboriginal and Torres Strait Islander applicants can apply through GEMSAS or may contact The Notre Dame Fremantle Admissions Office on 08 9433 0537 for advice on alternative pathways. Information on the Aboriginal Entry Pathway can be found at: https://www.notredame.edu.au/programs/fremantle/school-of-medicine/postgraduate/doctor-of-medicine.</p>
Rural Applicants	<p>The equivalent of at least 28% of the University's Commonwealth-supported medical student allocation must be of rural background as defined by the Rural Health Multidisciplinary Training (RHMT) Programme.</p> <p>If you come from a rural background (ASGC-RA 2 to 5 area) and wish this to be taken into account in your application, you will need to provide documentary evidence to GEMSAS and meet the eligibility requirements as defined by the RHMT Programme. Eligibility requirements are detailed by GEMSAS in this publication.</p> <p>If you are able to demonstrate that you are from a rural background, your Notre Dame Portfolio score may be adjusted by the provision of additional points in recognition.</p>
Western Australian Residency Scheme	<p>Applicants who have resided cumulatively in Western Australia for 10 years or more as at 31 May 2019 may have this taken into consideration in the scoring of their Notre Dame Portfolio. Specific documented evidence of this will be requested from applicants who are offered an interview. If an applicant cannot supply the required documentation, they may no longer be eligible for the interview.</p>
Interview	<p>Applicants are ranked by combining the scores calculated from a combination of the GPA, GAMSAT and Notre Dame Portfolio</p> <p>Approximately 200* applicants will be interviewed. Interview offers will be made in September 2019. Interviews will be held in Fremantle in September/October 2019.</p> <p>*Subject to change.</p> <p>The University of Notre Dame Australia reserves the right to offer additional interviews to applicants from alternative pathways.</p>
Offers	<p>Applicants who have been interviewed are ranked by combining the scores calculated from a combination of the GPA, GAMSAT and Notre Dame Portfolio with the applicant's interview score</p> <p>For offers for a place, applicants are ranked by the combination of their:</p> <ol style="list-style-type: none"> 1. GPA, GAMSAT and Notre Dame Portfolio score; and 2. Interview score. <p>Offers for both interview and course places are made via email to the email address provided by the applicant in his or her application.</p> <p>If no acceptance is received from an applicant within the stipulated timeframe, the offer will no longer be valid.</p> <p>Offers to successful candidates completing their degrees in 2019 will be conditional upon maintenance of a competitive GPA. Offers will be conditional until evidence is received by GEMSAS from the applicant that the applicant has achieved the required GPA as stated in the offer letter. Applicants who are conditionally-offered are encouraged to approach their conferring institutions to ensure that their completion will be confirmed by 31 December 2019.</p> <p>Under no circumstances will offers to study the Doctor of Medicine at Notre Dame, Fremantle be deferred or transferred.</p>
International Students	<p>Places for international students in 2020 are not available.</p>

Open days and Medicine Information Session	<p>Medicine Information Session - Sunday 24 March 2019, 10:15am for a 10:30 am start The University of Notre Dame Australia, Fremantle Campus, School of Medicine (ND35) and Tannock Hall of Education (ND4). To register your attendance, please visit: https://www.notredame.edu.au/events-items/medicine-info-session.</p> <p>Open Day - Sunday 11 August 2019, 10.00am - 3.00pm The University of Notre Dame Australia, Fremantle Campus. To register attendance, please visit: https://www.notredame.edu.au/events</p>
Changes/Updates	<p>All the information provided on this form is subject to change. Applicants are strongly advised to regularly check the Notre Dame website for updates/changes to any of the information on this form.</p>
Verification	<p>In fairness to all applicants, all information and documentation (Material) submitted in support of an application will be subject to strict verification and checking processes. In the event that any Material is not verified, the University may request further additional documentation, seek clarification and/or take any action in relation to the application, at any stage in the process that it deems appropriate.</p>
Feedback	<p>Specific feedback regarding the interview will not be provided to candidates. The average GPA and GAMSAT scores will continue to be published.</p>

THE UNIVERSITY OF NOTRE DAME AUSTRALIA
SCHOOL OF MEDICINE, SYDNEY

The information detailed below only applies to The University of Notre Dame Australia, Sydney.
 Applicants to The University of Notre Dame Australia, Fremantle, must read the separate section contained in this Guide.

The Objects of The University of Notre Dame Australia are:	<p>a. The provision of university education, within a context of Catholic faith and values; and</p> <p>b. The provision of an excellent standard of:</p> <ul style="list-style-type: none"> i. teaching, scholarship and research; ii. training for the professions; and iii. pastoral care for its students. 						
Contact details:	<table border="1"> <tr> <td>Telephone</td> <td>(02) 8204 4404</td> </tr> <tr> <td>Email</td> <td>sydney@nd.edu.au</td> </tr> <tr> <td>Web</td> <td>http://www.nd.edu.au/SydMD</td> </tr> </table>	Telephone	(02) 8204 4404	Email	sydney@nd.edu.au	Web	http://www.nd.edu.au/SydMD
Telephone	(02) 8204 4404						
Email	sydney@nd.edu.au						
Web	http://www.nd.edu.au/SydMD						
Places Available in 2020*	<p>*The expected number of places available for the Doctor of Medicine (MD) in 2020 is subject to change.</p> <table border="1"> <tr> <td>CSP</td> <td>43</td> </tr> <tr> <td>BMP</td> <td>17</td> </tr> <tr> <td>Full-fee</td> <td>Up to 60</td> </tr> </table>	CSP	43	BMP	17	Full-fee	Up to 60
CSP	43						
BMP	17						
Full-fee	Up to 60						
Fee-type and Quotas	<p>Applicants must specify which fee-type places they are applying for. Applicants will not be considered for places they have not selected. Offers will be made in the following order: CSP first, BMP second and Full-Fee third.</p>						
Change of Fee-Type Preferences	<p>No fee-type changes whatsoever will be allowed for Commonwealth Support (bonded or non-bonded) places.</p> <p>The only request for a change of fee-type that may be considered is a request to add or remove the Full-Fee category. This may be requested where your circumstances or preferences change. However, applicants must note that ONLY one change per application per year is permissible. Subsequent change requests will not be considered. All changes must be submitted by email no later than 4pm (AEST) on 4 October 2019. Requests received after this date/time will not be considered.</p> <p>To submit a change of fee-type preference for Notre Dame Sydney, please email Sydney Admissions at sydney.admissions@nd.edu.au. All changes, if approved, will be confirmed by the University via email.</p>						
No Transfer of Offer between Notre Dame's Fremantle and Sydney campuses.	<p>Prior to submission of university preferences, each applicant must give careful consideration to the Notre Dame Campus to which they are applying.</p> <p>Under no circumstances will any offer of a place to a new commencing student be transferable between Notre Dame's Sydney and Fremantle campuses.</p>						
Selection Process	<p>Candidates are selected for admission on the basis of the following criteria:</p> <ul style="list-style-type: none"> • Notre Dame Portfolio: Personal qualities, motivation to study medicine and to study at Notre Dame Sydney; • GAMSAT Overall Score: Applicants <u>must</u> achieve an overall GAMSAT score of at least 50; • Grade Point Average (GPA): Applicants <u>must</u> achieve an overall GPA score of at least 5.2; and • Interview (Multi Mini/Structured Interview). 						

<p>Qualifying Bachelor Degree</p>	<p>Applicants must have completed, or be in the final year of a minimum three year full-time equivalent (FTE) undergraduate degree (including an Honours year if applicable.)</p> <p>The following degrees may also be used as qualifying degrees, subject to the conditions stated:</p> <p><u>Vertical Double/Combined Degrees</u></p> <p>An undergraduate/postgraduate combined degree consisting of at least a two year undergraduate plus at least one year postgraduate degree must be completed by 31 December 2019. Completion of only the undergraduate component of the overall combined undergraduate/postgraduate degree will be deemed insufficient, unless the applicant has been approved by the conferring institution to exit the qualification early with at least a 3-year FTE Degree. Where an undergraduate/postgraduate degree has been used as the qualifying undergraduate degree, and it is the most recent study undertaken, all available units will be used in calculating the GPA.</p> <p><u>Accelerated degrees</u></p> <p>An accelerated degree consists of three trimesters per year completed in two years. Applicants in their final year of an accelerated degree must be due to complete their degree by 31 December 2019. Where an accelerated degree is later completed as a standard duration undergraduate degree, the most recent three years of study will be used in the GPA calculation.</p> <p>The following degrees cannot be used as qualifying degrees</p> <p>Conversion degrees will not be used in the GPA calculation and cannot be used as a qualifying degree.</p> <p><u>Applicants in the final year of study of qualifying degree</u></p> <p>Applicants who apply using their current enrolled minimum 3-year full-time equivalent (FTE) undergraduate degree will be expected to successfully complete all requirements of the degree including any Study Abroad components, as at 31 December 2019. Where deferred or supplementary exams are scheduled after 31 December 2019, the applicant will be deemed not to have successfully completed all requirements of the degree as at 31 December 2019. As such, applicants must note the stipulated deadlines carefully if and when requesting deferred or supplementary exams. Where an applicant is in the final year of study, the final-year GPA will be calculated based on the completed units within the final year. For example, if 0.25FTE units have been completed and the applicant is expected to complete 0.75FTE that year in order to complete their degree, their final year GPA will be calculated using 0.25FTE of units. Offers to successful candidates completing their degree in 2019 will be conditional upon maintenance of a competitive GPA and documentary evidence of degree completion to GEMSAS prior to 31 December 2019. Where relevant, this documentary evidence includes results from all Study Abroad components of their degree. As such, applicants must note their international institution's timeframe for supplying results if they are taking part in Study Abroad.</p>
<p>GPA Calculation</p>	<p>An applicant's GPA will, subject to the exclusions below, be calculated on the most recent 3-FTE years of study of completed/completing degrees at an AQF level 7 or above. All grades/results (including fail grades, if applicable) from the most recent 3-FTE years of completed/completing study will be used.</p> <p>Results used for the GPA calculation must contribute towards the degree, i.e. units completed that are not part of the awarding degree, will not be used for GPA calculations.</p> <p>GPA's will be calculated using study at Bachelor, Honours (excluding clinical and professional honours), Graduate Diploma, and Masters by coursework only. Graduate Diploma and Masters by coursework qualifications must be completed by 31 July 2019 to be used in the GPA calculation.</p>

	<p>Graduate Certificate, Masters by research, Doctoral Degrees, clinical and professional honours and study below Bachelor AQF level 7 will not be considered for the purpose of GPA calculation.</p> <p>Qualifications must be completed at a TEQSA-accredited institution (or for equivalent international qualifications, defined by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR)).</p> <p>For a Bachelor and Honours degrees, GPA years will be progressively weighted Final-minus-2 x 1, Final-minus-1 x 2 and Final x 3, to give greatest weight to the most recent results.</p> <p>If Graduate Diploma and Masters by Coursework study is to be included in an applicant's GPA calculation, the GPA calculation will not be weighted. The results from each of an applicant's three most recent years of eligible study would be of equal weight.</p> <p>For more information regarding GPA calculations and this terminology please refer to the GPA Guides on the GEMSAS Website: http://www.gemsas.edu.au/gpa-calculations/</p> <p>Recognition will be given to higher degrees of Masters by research or Doctoral Degrees completed by 31 July 2019 through the scoring on the Notre Dame Portfolio. These qualifications will not be used for the purposes of GPA calculations.</p>
<p>Currency of Qualification</p>	<p>Notre Dame requires applicants to have their qualifying degrees completed after 31 May 2009.</p> <p>Applicants whose qualifying degrees were completed before 31 May 2009, must have, between 31 May 2009 and 31 July 2019, successfully completed the equivalent of one year's full-time tertiary studies at Bachelor level or higher as defined by the Australian Qualifications Framework (AQF) or for international qualifications, defined by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR).</p>
<p>Application Process</p>	<p>All applicants (including CSP, BMP and Full-Fee-paying) must complete the online GEMSAS Application inclusive of the embedded Notre Dame Portfolio.</p> <p>The Notre Dame Portfolio must be completed irrespective of the ranking of Notre Dame Sydney in the GEMSAS application. Applicants who fail to submit a Notre Dame Portfolio will not be considered for a place.</p> <p>As part of the Notre Dame Portfolio, applicants MUST complete the Personal Statement section (on-line). In this, applicants will be asked to outline their motivation for pursuing a career in Medicine and for studying at Notre Dame, including their understanding of and respect for the Objects of the University. Applicants who fail to submit a Personal Statement as part of the Notre Dame Portfolio will not be considered for a place.</p> <p>The Notre Dame Portfolio may take time to complete and it is recommended that applicants commence preparation early and submit well before the closing date.</p> <p>A Notre Dame Portfolio template and guide will be available from the Notre Dame website from 30 April 2019 at www.nd.edu.au/SydMD and applicants are strongly encouraged to consider this template and guide when completing the Notre Dame Portfolio.</p> <p>It is the responsibility of the applicant to review their application BEFORE submission. STRICTLY no changes can be made once submitted, with the exception of updating verification contact information. Verification contact detail changes should only be requested if the verifier has updated contact details or is no longer able to verify experience due to unforeseen circumstances outside of the applicant's control. All verification contact details should be finalised before the submission of your portfolio.</p> <p>To update verification contact details please contact the Notre Dame Sydney Admissions Office at sydney.admissions@nd.edu.au. The final date for changing verification contact details is Friday 30 August 2019. It is the responsibility of the applicant to provide this information to both the Sydney and Fremantle campuses (if the applicant has nominated both the Fremantle and Sydney campuses as a preference). To update verification contact details for The University of</p>

	<p>Notre Dame Australia, Fremantle, please contact the Fremantle Admissions Office at fremantle.admissions@nd.edu.au.</p>
<p>Higher Degrees (Doctoral Degrees & Masters)</p>	<p>Doctoral Degrees or Masters by research completed by 31 July 2019 will be recognised through the scoring on the Notre Dame Portfolio.</p> <p>For the purpose of portfolio scoring, combined undergraduate/postgraduate degrees will not be awarded recognition.</p>
<p>Aboriginal and Torres Strait Islander Applicants</p>	<p>Aboriginal and Torres Strait Islander applicants can apply through GEMSAS or may seek advice on alternative pathways by contacting the Notre Dame School of Medicine, Sydney, Aboriginal and Torres Strait Islander Health Unit. The Unit can be accessed through the School of Medicine Sydney Office on 02 8204 4450 or by emailing: sydney.medicine@nd.edu.au</p>
<p>Rural Applicants</p>	<p>The equivalent of at least 28% of the University's Commonwealth-supported medical student allocation must be of rural background as defined by the Rural Health Multidisciplinary Training (RHMT) Programme.</p> <p>If you come from a rural background (ASGC-RA 2 to 5 area) and wish this to be taken into account in your application, you will need to provide documentary evidence to GEMSAS and meet the eligibility requirements as defined by the RHMT Programme. Eligibility requirements are detailed by GEMSAS in this publication.</p> <p>If you are able to demonstrate that you are from a rural background, your Notre Dame Portfolio score may be adjusted by the provision of additional points in recognition.</p>
<p>Special Entry/Pathway Schemes</p>	<p>Please see the Notre Dame website (www.nd.edu.au/SydMD) for details on additional Special Entry/Pathway Schemes (SEP Schemes) which may be available for 2020 entry.</p>
<p>Interview</p>	<p>Applicants are ranked by combining the scores calculated from a combination of the GPA, GAMSAT and Notre Dame Portfolio.</p> <p>Approximately 300* applicants will be interviewed. Interview offers will be made in September 2019. Interviews will be held in Sydney in September/October 2019</p> <p>*Subject to change.</p> <p>The University of Notre Dame Australia reserves the right to offer additional interviews to applicants from alternative pathways.</p>
<p>Offers</p>	<p>Applicants who have been interviewed are ranked by combining the scores calculated from a combination of the GPA, GAMSAT and Notre Dame Portfolio with the applicant's interview score</p> <p>For offers for a place, applicants are ranked by the combination of their:</p> <ol style="list-style-type: none"> 1. GPA, GAMSAT and Notre Dame Portfolio score; and 2. Interview score <p>Offers for both interview and course places are made via email to the email address provided by the applicant in his or her application.</p> <p>If no acceptance is received from an applicant within the stipulated timeframe, the offer will no longer be valid.</p> <p>Offers to successful candidates completing their degrees in 2019 will be conditional upon maintenance of a competitive GPA. Offers will be conditional until evidence is received by GEMSAS from the applicant that the applicant has achieved the required GPA as stated in the offer letter. Applicants who are conditionally-offered are encouraged to approach their conferring institutions to ensure that their completion will be confirmed by 31 December 2019.</p> <p>Under no circumstances will offers to study the Doctor of Medicine at Notre Dame, Sydney be deferred or transferred.</p>

International Students	Places for international students in 2020 are not offered through the GEMSAS application process. International applicants may contact the University's International Office at international@nd.edu.au for information on how to apply
Open days and Medicine Information Session	<p><u>Medicine Information Session</u></p> <p>Sunday 24 March 2019 10-12pm</p> <p>The University of Notre Dame Australia, Sydney Campus School of Medicine (ND35), 160 Oxford St, Darlinghurst.</p> <p>Tuesday 21 May 2019 6.00pm</p> <p>The University of Notre Dame Australia, Sydney Campus School of Medicine (ND35), 160 Oxford St, Darlinghurst.</p> <p>To register your attendance, please visit: www.nd.edu.au</p> <p><u>Open Day</u></p> <p>Saturday 31 August 2019 9.00am - 3.00pm</p> <p>The University of Notre Dame Australia, Sydney Campus, 140 Broadway, Chippendale.</p> <p>To register attendance, please visit: www.nd.edu.au</p>
Changes/Updates	All the information provided on this form is subject to change. Applicants are strongly advised to regularly check the Notre Dame website for updates/changes to any of the information on this form.
Verification	In fairness to all applicants, all information and documentation (Material) submitted in support of an application will be subject to strict verification and checking processes. In the event that any Material is not verified, the University may request further additional documentation, seek clarification and/or take any action in relation to the application, at any stage in the process that it deems appropriate.
Feedback	Specific feedback regarding the interview will not be provided to candidates. The average GPA and GAMSAT scores will continue to be published.

THE UNIVERSITY OF QUEENSLAND

FACULTY OF MEDICINE

Contact details:	Telephone	(07) 3365 2203
	Email	admissions@uq.edu.au
	Web	https://medicine.uq.edu.au
	International	International Applicants should contact UQ International - email: study@uq.edu.au
Places Available in 2020	Numbers are indicative only and are subject to annual variations	
	Graduate CSP (including rural)	100
	Graduate BMP (including rural)	40 (28.5%)
	Provisional cohort	140 (including rural and BMP quotas)
	ATSI	No set quota
	International	210 (max 120 UQ-OCHSNER and 90 others)
Bachelor Degree/ GPA	<p>Applicants must have achieved a minimum converted GPA of 5.0/7.0 in their most recently completed key degree. The GPA is not currently used to rank UQ applicants, but is used as a tiebreaker when necessary (see also 'Offers' section).</p> <p>The first key degree must be a Bachelor level program which has a minimum standard duration of six semesters of full time study (i.e. 3.0 FTE). Bachelor degrees which have a standard duration of less than six semesters of full time study will not be considered in UQ's assessment process. Postgraduate degrees can only be accepted as a 'subsequent' key degree <u>after</u> an applicant has previously completed a Bachelor degree of the required minimum standard duration.</p> <p>Where an applicant has completed an approved Honours award, Graduate Diploma, Postgraduate Diploma, Masters or Doctoral degree after completion of an acceptable first Bachelor degree, the most recent of these programs will be used as the basis of the GPA assessment. Graduate certificate programs are not classified as key degrees and grades from these programs will only be included in the GPA assessment when they have contributed credit towards a higher level postgraduate program.</p> <p>The GPA for the UQ preference is calculated over the entire duration of the degree. This means that grades are not divided into years for a 'count back' assessment of the GPA. As a result, UQ's GPA assessments are weighted by credit value of the subjects rather than the year in which the subjects were completed.</p> <p>All subjects studied while enrolled in the key degree program are included in the GPA calculation, whether or not they counted towards the award of the degree. Any other study for which credit was given towards the degree must also be included, this includes failed attempts at subjects in earlier programs that were repeated and passed to attain credit.</p> <p>Where the degree was completed as part of a combined, dual or parallel degree program, all subjects studied towards both degrees are included in the calculation of the GPA. This includes dual bachelor/master programs that have an integrated delivery of content.</p> <p>Letter grades are used in all GPA calculations by The University of Queensland. Percentages are only used when letter grades are unavailable.</p> <p>Completed Doctor of Philosophy (PhD) and Master of Philosophy (MPhil) programs are allocated a deemed GPA of 7.0. Honours (by research) receive a GPA as per the Honours category in the conversion table on page 89. To classify as a research based program, a program must contain a research component that comprises at least 67% of the overall program content.</p>	

	<p>The GPA for Bachelor degrees with embedded or 'on-course' Honours (typically 4 or 5 year degrees) may be calculated using whichever method gives the highest result. That is, either GPA calculation based on the coursework, or from the Honours category.</p> <p>Qualifying programs are often incomplete at the time of offers. Applicants are advised not to include a UQ preference if their qualifying program cannot be completed in full with a minimum GPA of 5.0/7.0 before 31 December 2019.</p>
Current study assessments	<p>UQ will only consider a current study assessment where <u>all</u> of the following conditions apply:</p> <ol style="list-style-type: none"> 1. The applicant is currently completing their first key degree (<u>or</u> the applicant is currently studying a subsequent key degree where their most recently completed key degree has a GPA below 5.0), <u>and</u> 2. Some finalised grades are available for the current key degree program, <u>and</u> 3. The progressive GPA of the current study is above 5.0, <u>and</u> 4. It is possible for the applicant to complete the current key degree before 31 December in the year of application. <p>If one or more of these conditions are not met, a current study assessment will not be considered by UQ unless the current study is being undertaken by research. In this scenario, a GPA of 5.0 will be nominally awarded to keep the applicant active in the selection pool.</p> <p>Any offer made based on a current study assessment will require completion of the qualifying key degree prior to 31 December in the year of application with the required minimum overall GPA of 5.0. If either the completion requirement or the GPA requirement are not met, the conditional offer will be rescinded and the applicant's place in the program will be cancelled.</p>
Currency of qualification	<p>Applicants whose key degree was completed more than 10 years prior to commencement in the MD may be considered if they have successfully completed the equivalent of at least one full semester (i.e. 0.50 FTE) of postgraduate coursework study in the recent 10 year period. The reactivation study must be graded and it must be completed at Graduate Certificate, Graduate Diploma, Postgraduate Diploma or coursework Master level.</p>
GAMSAT	<p>Applicants must achieve a minimum score of 50 in each section. Applicants with any section score below 50 are deemed ineligible. From the 2020 intake onwards, UQ will be using an unweighted GAMSAT score (a simple average of the three sections truncated to a whole number).</p>
Aboriginal and/or Torres Strait Islander Applicants	<p>Applicants who are from an Aboriginal and/or Torres Strait Islander background are required to submit their application directly to UQ's Aboriginal and Torres Strait Islander Studies (ATSIS) Unit for consideration under a separate selection process which involves short listing and interview. Short listed applicants must be able to provide documented proof of their ATSI status at their interview. Please contact the ATSIS Unit (atsis@uq.edu.au) for more information.</p> <p>The GAMSAT exam is not compulsory for Aboriginal and/or Torres Strait Islander applicants at UQ. However, it is recommended that Aboriginal and/or Torres Strait Islander applicants who choose to undertake the GAMSAT exam should also apply through GEMSAS and include UQ in their preference list, in addition to undertaking the alternative process which is administered by the ATSIS Unit. Aboriginal and/or Torres Strait Islander background applicants who choose not to sit the GAMSAT exam should not apply through GEMSAS.</p> <p>It is important to note that if an Aboriginal and/or Torres Strait Islander background student applies directly to UQ and also chooses to lodge a separate GEMSAS application but doesn't include UQ in their preference list, the applicant's GEMSAS preference order will be respected and UQ will be considered to be their last preference (e.g. preference number 7, if all 6 GEMSAS preferences have been used).</p>
Rural entry	<p>In accordance with Government legislation, The University of Queensland will offer 28% of places to students from a rural background.</p>

	<p>Students will be eligible for consideration in the Rural Background Students (RBS) sub quota if they have spent at least 5 years continuously, or 10 years cumulatively, living in a rural Australian area as determined by the ASGC-RA (Australian Standard Geographical Classification - Remoteness Area) system. As approved rural background applicants compete for places within a sub quota, the GAMSAT cut-off may be lower for this cohort.</p> <p>UQ awards two adjustments to the unweighted average GAMSAT score to assist rural background applicants in being more competitive for non-bonded places. All other standard selection policies and procedures still apply.</p> <p>Applicants who wish to be considered through this scheme will need to provide documentary evidence to GEMSAS as detailed on page 21 of the GEMSAS Guide and the GEMSAS website.</p>
Interview	<p><u>Interview Selection:</u> Selection for interview will be based on the unweighted average GAMSAT score. If required, the GPA will be used as a tiebreaker.</p> <p><u>Interview Format:</u> Interviews will be conducted in the Multiple Mini Interview (MMI) format consisting of several interview stations, each with a single interviewer. MMIs will be held in September 2019.</p>
Clinical Units	<p>Students in year 1 of Phase 1 (year 1 and 2) spend 4 hours per week in their clinical unit, the remainder of the time will be at the St Lucia campus. Students in year 2 will spend the majority of their time at their clinical unit. Please note, your clinical unit may change from year 1 to year 2.</p> <p>In years 1 and 2 students will be able to self-select one of three clinical units through UQ's student system in the weeks before classes commence on a 'first in' basis. Details of this process will be provided on the Medical Program website.</p> <p>Each of the three Phase 1 clinical units are accessible through two bus services (Routes 66 and 332) which run every 5 minutes from the St Lucia campus during semester periods.</p> <p>During Phase 2 (years 3 & 4), there are 10 clinical sites to choose from (subject to quotas). The majority are located in Brisbane and its surrounding cities, with four located in rural Queensland. In Phase 2, students are able to rank order their preferred clinical units for the year, final allocations will be determined by the faculty.</p> <p>The full list of clinical units is available at this site: https://medicine.uq.edu.au/clinical-schools</p>
Offers	<p>Interviewed applicants will be ranked in a merit order (and offers made) according to the following methodology:</p> <ul style="list-style-type: none"> - 50% Interview score - 25% Unweighted average GAMSAT Score - 25% Grade Point Average (GPA) from designated key degree. <p>Quotas are filled in the order of non-bonded CSP, then bonded CSP (known as BMP). Rural Background (RBS) places will be filled from both bonded and non-bonded places.</p> <p>Offers made to applicants in the final year of their qualifying key degree will be conditional upon the completion of their current degree before 31 December in the year of application with a final overall program GPA of 5.0 or better.</p> <p>Offers are made in November with a small number of subsequent offers in December and January (if required).</p>

<p>Other Recommendations & Requirements</p>	<p>Recommendations for all applicants:</p> <ul style="list-style-type: none"> • For the MD program, undergraduate university studies in science, biomedical science or health sciences with time spent studying social sciences and humanities may be helpful. • Useful university courses are: Anatomy, Physiology and Biochemistry. • For more information visit medicine.uq.edu.au/pathways-medicine. • Please refer to this webpage for the Australian Medical Deans inherent requirements to study medicine: https://medicine-program.uq.edu.au/node/5103/5#5 <p><u>Program requirements for commencement:</u></p> <ul style="list-style-type: none"> • Provide a completed schedule of immunisations and evidence of status with respect to specific blood-borne viruses; • Obtained a current Apply First Aid (including CPR) certificate; • Applied for a Working with Children ('Blue Card') clearance (during Orientation week); • Queensland Health checklist and deed; and • Criminal History Check approved by the faculty <p>Further information is available at this site: https://medicine-program.uq.edu.au/current-students/annual-program-requirements-year-1</p>
<p>Deferrals</p>	<p>If you are successful in gaining an offer to study at UQ and you have experienced an unexpected life event (after lodging your application) that will delay your commencement of study, please contact UQ Admissions to discuss your options. If you expect to be requesting deferment prior to lodging your GEMSAS application, it is highly recommended that you consider applying for a future intake instead.</p>
<p>English Proficiency</p>	<p>An applicant from a non-English speaking background (NESB) must satisfy the English Language Proficiency (ELP) requirements in order to be considered for a place. The ELP requirements of domestic NESB students are the same as those for international NESB applicants and they can be found at the following link: https://future-students.uq.edu.au/apply/english-language-proficiency-requirements</p>
<p>International Students</p>	<p>International students do not apply through GEMSAS for entry to UQ's MD program. Details of the standard MD entry requirements for international applicants can be found at this address (note that you must set the page to "I'm an international student"): https://future-students.uq.edu.au/study/program/Doctor-of-Medicine-5578?year=2020</p> <p>Details of the UQ-Ochsner application process can be found at this address: https://future-students.uq.edu.au/study/program/Doctor-of-Medicine-5579?year=2020</p> <p>Please contact UQ International through study@uq.edu.au for additional information regarding admission requirements and application processes for international applicants.</p>
<p>Open Days and Information Sessions</p>	<p>St Lucia campus</p> <p>Sunday 4 August 2019</p> <p>9am – 3pm</p>
<p>Changes/Updates</p>	<p>From the 2022 intake onwards all applicants will be required to have completed prescribed tertiary prerequisite subjects. To be eligible for MD entry from 2022, applicants will be required to complete two UQ courses: <i>Integrative Cell and Tissue Biology</i> and <i>System Physiology</i> (or equivalent approved subjects at UQ or another institution). Detailed information about the prerequisites including equivalent approved subjects can be found at: https://medicine.uq.edu.au/future-students/changes-md-admissions/doctor-medicine-prerequisites. Applicants seeking to apply in a future intake are strongly encouraged to visit this</p>

site frequently as new assessments are added regularly. Alternatively, future applicants may enquire about equivalent approved subjects and assessments by contacting admissions@uq.edu.au.

	Email	meddentadmissions@uwa.edu.au
	Web	www.meddent.uwa.edu.au/admissions
Course Type	UWA offers a 4-year Doctor of Medicine (MD) course.	
Places Available in 2020	Up to 63 Places, of which:	
	<ul style="list-style-type: none"> • approximately 28% of places are available for rural applicants; • up to 10% of places are available for Indigenous students. • 28.5% of all domestic medical places are BMPs. 	
	Further information on quotas can be found on our website .	
	CSP	see above
BMP	see above	
International	Approximately 10 places	
Bachelor Degree/ GPA	<p>In order to be eligible for entry, applicants must have completed a recognised* bachelor degree, or will complete a recognised* bachelor degree by the end of the application year.</p> <p>Applicants who only hold higher degrees</p> <p>As all applicants require a recognised* bachelor degree for entry to the UWA MD course, applicants who have completed a higher degree but have not completed a recognised* bachelor degree will not be eligible for consideration.</p> <p>GPA</p> <p>Domestic applicants who were successful in obtaining an interview for 2019 entry averaged GPA of 6.72.</p> <p>Study included in the GPA calculation:</p> <p>Applicants must have achieved a GPA of at least 5.5 at time of interview selection. The GPA is calculated on the most recent three full-time-equivalent years (FTE) of study (e.g. 3 FTE is 144 credit points at UWA). Please note this excludes any exemptions, credit or advanced standing. The Faculty includes Bachelor, Honours (only if already completed or if it will be completed by end of semester one, 2019), Graduate Certificate, Graduate Diploma, and Masters by coursework level of study in the GPA calculation if undertaken in the most recent three years FTE. Additional study (other than honours) does not need to be completed. Applicants who have undertaken additional study (whether postgraduate or additional undergraduate study) should indicate this on the GEMSAS application.</p> <p>Unweighted GPA:</p> <p>The GPA for UWA is not weighted. To calculate an unweighted GPA you simply need to add the three GPA years (final GPA year, final GPA year-1 and final GPA year -2) together and divide by three. If you only have two years of results at the time you calculate your GPA you would add the two GPA years together and divide by 2.</p> <p>Further GPA Complications:</p> <p>Please see our website for information on how we deal with the following complications to a GPA calculation:</p> <ul style="list-style-type: none"> • Ungraded Passes (and Fails) • Exchange Studies • Credit/Exemptions/Advanced Standing 	

- Not-for-degree/Open University studies.
- Repeating Units

Minimal results in the current year of study:

Where an applicant has 0.25 FTE (or less) of results for their final GPA year at the end of semester 1, 2019, the Faculty will include older study, where available. Where no older study is available, the Faculty will calculate the GPA on only the “GPA Final-1” and “GPA Final-2” years. In this instance, if an applicant is made an offer, it will be conditional upon their performance in all units in 2019 (see section below about conditional offers).

Applicants with completed PhDs:

Applicants who have **completed** a PhD (from a recognised Institution) by the time of application will be awarded/deemed a GPA of 7.0.

Applicants with completed Masters by Research:

Completed Masters by research qualifications are not included in the GPA calculation. Instead the Faculty will add a small bonus of 0.2 to the overall GPA for applicants who have **completed** this qualification at time of application.

Degree Completion and semester two, 2019 results- Conditional Offers:

Applicants who are eligible for a course offer but are studying (at any level including postgraduate level) in semester two, 2019 will be made a conditional offer requiring them to achieving a minimum GPA of 5.5 in the final semester. Applicants who have not yet completed their initial bachelor degree will also be required to complete their bachelor degree by the end of 2019 as part of their offer conditions.

Please note that if you are completing your initial bachelor degree and undertake a course of action that will result in you receiving late results, you may not meet offer conditions by the required deadline, i.e. the end of December, 2019 **which will result in your offer being withdrawn. Therefore take care when undertaking any course of action in semester 2, 2019 that could delay your results or degree completion.** This may include undertaking deferred/supplementary exams, undertaking units that fall outside normal semesters (e.g. summer units or trimester units) or going on exchange. If you anticipate any problems, please contact the Faculty as soon as possible to determine whether your offer will be withdrawn.

Accelerated degrees and conversion courses:

UWA will accept 2-year bachelor degrees and 1-year conversion degrees for the purposes of admission to our medical course. However, applicants undertaking a 1-year conversion degree who have not completed a previous bachelor degree must complete that course before applying for entry to UWA (i.e. applicants cannot apply during the conversion course).

*The completed undergraduate degree must be from an Australian university or a Higher Education Institution recognised by the Australian Qualifications Framework, or a recognised Bachelor qualification listed in the National Office of Overseas Skills Recognition (NOOSR) Guide.

Currency of qualification	There is no 10-year rule for entry to UWA which means that we will consider applicants with degrees older than 10 years.
GAMSAT	Applicants must obtain a minimum overall score of 55 with no individual section score below 50. Domestic applicants who were successful in gaining an interview for 2019 entry averaged a GAMSAT score of 68.

Indigenous Applicants	The Faculty encourages Aboriginal and Torres Strait Islander people to consider applying for entry into the MD. In addition to the pathways listed here, there are alternative pathways available for Aboriginal and Torres Strait Islander applicants. These are available through the Centre for Aboriginal Medical and Dental Health (see www.camdh.uwa.edu.au for further details).
Rural	<p>Applicants must meet eligibility requirements in order to apply for the Rural Pathway.</p> <p>Applicants, who wish to apply for the choose medicine Rural Pathway, must complete the relevant questions in the application form and submit supporting documentation to GEMSAS by 14 June 2019 in order to prove their eligibility for the pathway.</p> <p>Rural applicants are encouraged to contact the Faculty at: rural-broadway-fmdhs@uwa.edu.au.</p>
Interview	Selection for interview is based equally on standardised GAMSAT Overall Score and GPA. Structured interviews will be held in Perth, and are expected to take place within the period 28 th September to 4 th October. Applicants will need to attend their interview in Perth, in person. There are no skype or videoconferencing options. Please note that not all dates within the period will be available.
Offers	Applicants are ranked by combining and equally weighting standardised scores calculated from the: GAMSAT Overall Score; GPA; and interview score. For rural applicants, a rural rating will be included in the ranking.
Deferral	There is no deferrals granted to the MD unless under exceptional circumstances . Please see our website for eligibility information.
Credit/Exemption	As the course is postgraduate, no credit or exemptions can be granted from undergraduate courses, including graduate entry MBBS courses.
International Students	<p>UWA will have approximately 10 places available in 2019 for 2020 entry. International applicants will need to apply directly to the UWA by 31 May 2019 and can find an application form at: http://www.meddent.uwa.edu.au/courses/postgraduate/apply-professional/int-std-path/applications.</p> <p>Applicants may sit either GAMSAT or MCAT provided their results are available by 31 May 2019. Applicants who will receive their results slightly after this deadline should contact the Faculty for advice on eligibility to apply. All applicants must have a minimum GPA of 5.5. Applicants must have a minimum overall GAMSAT of 50 and usually require minimum sectional scores of 50. Applicants require minimum test scores 123/123/123/123 and an overall minimum of 492. Applicants with one sectional score marginally below 123 should contact the Faculty for advice on eligibility</p> <p>Interviews will be held in Singapore, Canada and Hong Kong* (in July) or in Perth (in August). All interviews must be conducted in person.</p> <p><i>*Subject to demand.</i></p>
English Language Proficiency	<p>Domestic and international applicants will meet English language requirements if their tertiary qualification(s) have been taught and assessed in one of the following countries (minimum two years FTE):</p> <ul style="list-style-type: none"> • Australia • Canada (except Quebec) • New Zealand • Republic of Ireland • United Kingdom • United States of America

	<p>Domestic and international applicants who do not meet the above English language requirements can provide evidence of meeting via the following International English Language Testing System (IELTS) Academic scores:</p> <ul style="list-style-type: none"> • A minimum overall score of 7.0 • A minimum score of 7.0 in each band <p>Minimum IELTS scores must be achieved in one sitting of the test less than two years from intended enrolment.</p> <p>Applicants with other qualifications in English are assessed by UWA on a case by case basis, and may be required to sit an IELTS Academic in addition to their previous studies.</p> <p>For additional ways of satisfying English language requirements, please visit https://study.uwa.edu.au/how-to-apply/entry-requirements/english-language-requirements</p>
<p>Open Days and Information Sessions</p>	<p>The Faculty will host an information evening for graduate applicants to the MD/DMD/DPM and MPharm on Tuesday 21 May at 6.30pm in the Social Sciences Lecture Theatre, UWA (Crawley Campus). Please contact the Admissions Office for confirmation of venue in May.</p>

Doctor of Dental Medicine (DMD), Doctor of Podiatric Medicine (DPM) & Master of Pharmacy

UWA admitted its first applicants into the 4-year DMD and 3-year DPM courses in 2013.

Selection for the DMD is based on suitable GAMSAT (or MCAT for international applicants), a minimum GPA of 5.5 and interview. Shortlisted applicants to the DMD will also be required to sit a spatial awareness test at time of interview. Applications for the DMD will close on 31 May 2019 for both international and domestic applicants.

Selection for the DPM is based on suitable GAMSAT (or MCAT for international applicants) and a minimum GPA of 5.0 (there is no interview). An alternate pathway is available for students who have not undertaken GAMSAT (or MCAT if an international student) but who have successfully completed certain prerequisite subjects. Applications for the DPM will close on 30 September 2019 for both domestic and international applicants.

Selection for the MPharm is based on a minimum GPA of 5.0 and interview. Applicants will also need to complete certain prerequisite subjects. Applications for the MPharm will close on 31 May 2019 for international applicants and 9 August 2019 for domestic applications.

Please see our website for further admission information and quotas. Applications will be handled directly by the Faculty and applicants should visit: <http://www.meddent.uwa.edu.au/courses/postgraduate/apply-professional/domestic-std-path> for information on how to apply.

UNIVERSITY OF WOLLONGONG

GRADUATE MEDICINE

Contact details:	Telephone	1300 367 869 (within Australia) + 61 2 4221 3218 (International)
	Email	md-enquiries@uow.edu.au
	Web	http://smah.uow.edu.au/medicine/
The UOW Doctor of Medicine (MD)	<p>The UOW Doctor of Medicine (MD) program aims to produce excellent medical practitioners who have the capacity and desire to contribute to the enhancement of health care for patients in all geographic settings, but particularly in regional, rural and remote communities. We strive to use recent technology, best educational practice and an innovative curriculum to produce graduates with a commitment to patient-centred, evidence-based, reflective and cost-effective medical practice. The program is based on the best educational evidence from medical schools around the world. It features an innovative, integrated spiral curriculum which revolves around a case based learning core.</p> <p>GM benefits from purpose built facilities, featuring dedicated teaching and resource spaces. GM also features Simulation Centres where the students are exposed to a combination of modern technology and traditional bedside clinical teaching, with the help of Simulated Patients, to develop their skills in diagnosis and management of a wide variety of diseases and conditions. Clinical exposure occurs early in the program, with students being allocated to hospitals, primary care settings and community health centres from their first semester of study.</p> <p>Students spend significant time during their training undertaking both short and long term clinical placements in many regional and rural locations. These attachments allow students to gain insight into life in regional, rural and remote communities and to gain an insight into the challenges and rewards that come with practicing medicine in these settings.</p> <p>Students will receive a broad based education with a focus on rural medicine, graduating with the skills and ability to practice in any geographic setting and to commence training in any speciality.</p>	
Places Available in 2020	Approximately 84 places will be available, including up to 17 places for international students. Students will be placed at either Wollongong campus or Shoalhaven campus for the first 18 months of the program (Phase 1). Students may complete placement outside of these areas during Phase 1.	
	CSP	50 (subject to change)
	BMP	17 (subject to change)
	International	Up to 17 (subject to change)
Bachelor Degree/ GPA	<p>All applicants must have completed, or be in their final year of study at time of application, an undergraduate degree consisting of at least three years duration when studied full-time, or equivalent (FTE). The undergraduate degree must be from an Australian university or an equivalent overseas Bachelor qualification from an institution that is recognised under the framework and guidelines set by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR). All qualifying degrees need to be completed by 31st December 2019.</p> <p>Applicants must have a weighted GPA of greater than 5.0 on a 7 point scale or 2.8 on a 4 point scale at the time of interview selection to be eligible to apply. The GPA score required to receive an offer for interview may fluctuate annually. This GPA will be calculated based on the most recently completed Bachelor degree (including an Honours year if applicable). Postgraduate qualifications are not included in GPA calculations.</p> <p>GPA years will be progressively weighted Final-minus-2 x 1, Final-minus-1 x 2 and Final x 3, and then divided by 6, to give greater weight to the most recent results.</p>	

Current study in final year GPA calculations must be at least 0.375 FTE to be included, otherwise those results may not count and the GPA will be calculated based on the Final-minus-1 and Final-minus-2 GPA years only.

UOW does not normally recognise two year Bachelor degrees or one year conversion degrees for the purpose of admission to the medical course. Two year FTE (e.g. graduate entry) Bachelor degrees may only be accepted if completed at time of application, or if there has been a three year Bachelor degree completed prior. In this instance, a two year GPA will be calculated for admissions purposes. Applicants who have completed the equivalent of a three year FTE Bachelor degree but have been awarded credit for prior academic learning may be exempt from this rule. However, UOW generally requires applicants to have completed at least two years of full time study within their awarding institution. Please contact GM for more information if your degree is less than three years FTE in duration.

Accelerated Bachelor degrees are accepted by UOW; that is, a degree consisting of three full time trimesters per year for two years from a recognised institution.

Combined Bachelor/Masters degrees must have all program requirements completed for the qualification to be accepted for admissions purposes by 31st December 2019. This qualification must have a minimum length of three years FTE, with at least two years FTE of Bachelor level study. Where the Bachelor level units are identifiable, this will be the basis for the GPA calculation. If the Bachelor level units cannot be ascertained, all units from the final three years will be included.

Applicants completing combined/double degrees will have their GPA calculated using the final three years of their combined degree. If an applicant exits their combined degree to graduate with a single degree (and the single degree must be a valid three year FTE Bachelor degree), the GPA will be calculated to include only units from the single degree if identifiable; otherwise UOW will revert back to using all units in the final three years. If an applicant is made an offer and subsequently exits their combined degree to graduate with a single degree (and the single degree must be a valid three year FTE Bachelor degree), then their offer is conditional to their maintenance of the minimum required GPA

UOW reserves the right to recalculate GPAs at any time before the close of the admissions cycle if required.

Currency of qualification

Applicants are required to have graduated from their undergraduate degree within ten years of the closing date of applications.

Applicants whose undergraduate degree was completed outside the ten year period may still be considered for admission if they have completed the equivalent of one year full-time tertiary study at Graduate Diploma level or higher at a recognised university within the last ten years. If no postgraduate study has been completed in the last ten years, applicants can apply for a waiver of this rule if they can demonstrate through other activities that they hold current high level academic skills.

To request a waiver, applicants need to provide a copy of their university transcripts, CV, and any other documentation in support of their request to md-enquiries@uow.edu.au. This should be submitted prior to the closing date of applications to ensure that academic currency has been deemed suitable to continue your application to UOW.

Applicants who are required to be assessed for academic currency due to the ten year rule will be deemed ineligible for consideration of an interview and place at UOW for 2019 entry if:

- An applicant submits a waiver request that is not approved by the UOW Admissions Executive.
- An applicant does not submit a waiver request at all.

It is the responsibility of the applicant to research UOW requirements and submit a waiver request if needed- UOW does not take responsibility if an applicant has been deemed ineligible at UOW due to non-submission or late submission of a waiver request.

	<p>If a waiver request is submitted and not approved after the closing date of applications, no changes to preferences can be made at this time. If a waiver request is submitted close to the application closing date, UOW cannot guarantee that it will be processed before applications close.</p>
<p>GAMSAT, CASPer and Portfolio</p>	<p>A minimum GAMSAT Overall Score of 50 with a minimum of 50 in each of the three Sections is required to be considered for interview.</p> <p>CASPer is an online video based scenario, situational judgement test and is designed to measure the personal and professional traits, such as ethics, empathy and communication and how these traits will be best suited towards a career in medicine. For domestic applications to be considered at UOW GM, applicants need to have completed the CASPer test during the testing periods identified for UOW MD applicants. Applicants who do not have a valid CASPer score will not be considered eligible for entry, regardless of their competitiveness against other entry criteria. For 2020 entry, CASPer scores will be used as a primary hurdle requirement for interview ranking and may also be considered as an additional piece of evidence in final offers.</p> <p>CASPer testing for UOW MD applicants will be held on:</p> <p>Thursday May 23, 2019 – 10:00am AEST</p> <p>Monday June 3, 2019 – 7:00pm AEST</p> <p>Sunday June 9, 2019 – 10:00am AEST</p> <p>It is recommended that applicants try and register to take the test on the first available date. If you have not yet registered for CASPer by the time of GEMSAS applications closing you must register IMMEDIATELY to ensure you are included in the final test dates in time for consideration this year. Applicants without a CASPer score will not be considered for entry.</p> <p>For more information on CASPer at UOW and how to register for the test, please review UOW MD Admissions webpage or head directly to https://takecasper.com</p> <p>CASPer FAQs</p> <p>MD Admissions page</p> <p>The GEMSAS application form also incorporates the GM Admissions Portfolio which must be completed by all applicants. The portfolio, application and rural residency forms should be submitted electronically directly to GEMSAS and will be used as one of the criteria to rank your eligibility for interview. This information must be submitted regardless of UOW ranking on your preference form as applicants who fail to submit a portfolio will not be considered.</p> <p>The GM Admissions Portfolio may take time to complete and it is recommended that applicants commence preparation early and submit well prior to the closing date.</p> <p>To assist in your preparation, a draft portfolio template is available from the GM website for your consideration. This is a template only to be used as a guide - only portfolios submitted in the approved format via GEMSAS will be accepted. Please note that all activities highlighted in the portfolio require a current email contact for verification.</p> <p>GM Draft Portfolio Template</p> <p>GM Portfolio Guide for 2020 Entry</p> <p>The application form and portfolio must be completed electronically via GEMSAS by the advertised closing date.</p>
<p>Bonuses / Special entry schemes</p>	<p>No GPA bonuses are awarded for postgraduate study; however applicants are encouraged to include these academic experiences in their portfolio as they will be viewed favourably during scoring. Rural applicants should read the sections below for further information.</p>

<p>Indigenous Applicants</p>	<p>GM understands the important role of Indigenous medical practitioners in addressing the disparity of health outcomes for Indigenous people. This is demonstrated through a commitment to training Indigenous doctors by providing a range of support mechanisms for applicants who are of Aboriginal or Torres Strait Islander descent.</p> <p>A dedicated selection process is available for Indigenous applicants. For further information on this, please contact the GM.</p> <p>To be considered for these places when applying via GEMSAS, applicants must indicate their Indigenous status at the time of application. Applicants will be contacted by GM to supply relevant supporting documentation.</p> <p>Applicants in this category are required to reach acceptable levels of performance in GAMSAT, interview and GPA as determined by the school.</p> <p>A panel interview with the Academic Leader: Admissions and Selection, Academic Leader: Indigenous Health and a representative from the community is required.</p>
<p>Rural entry</p>	<p>Rural applicants do not need to apply specifically for a rural sub quota as GM gives preference to students who can demonstrate ties to regional, rural and remote communities.</p> <p>UOW GM uses the rural residency/schooling part of the application to assess your background as far as living and studying in rural and regional areas. The information on your form is assessed and scored using the Australian Standard Geographical Classification - Remoteness Area (ASGC-RA). GM will require rurality verification of your schooling and residential address details as outlined in your Admissions Portfolio.</p> <p>Rurality supporting documentation must be submitted directly to GEMSAS as per the instructions outlined in this guide.</p>
<p>Campus and place type preference</p>	<p>At the time of application applicants will need to indicate their preferred campus (Wollongong or Shoalhaven) for the first 18 months of the program. This preference will be considered but not guaranteed.</p> <p>Extenuating circumstances for campus preference may be considered. Applicants will be contacted by GM to supply relevant supporting documentation if required.</p> <p>Applicants must also indicate their place type preferences at time of application, in the order they would most like to be offered. UOW offers CSP and BMP places. There are no Fee paying places available.</p> <p>Campus and place type preferences have no influence on the decision for offer.</p>
<p>Interview</p>	<p>Applicants for the UOW MD are ranked for interview using the overall total of their weighted GPA, GAMSAT and Portfolio scores (including rurality). The weighting of each criterion is 30%, 30% and 40% respectively. Approximately 160 applicants will be invited to interview.</p> <p>Domestic interviews are conducted by formally trained interviewers in a multi-station format on both the Wollongong and Shoalhaven Campuses across two weekends in late September 2019. Interviewees are rated on personal qualities including their communication skills, empathetic and ethical approach, reflective manner, teamwork and decision making skills.</p>
<p>Offers</p>	<p>On the completion of the interview process, candidates' interview scores and portfolio scores are used to rank for offer, with equal weighting. GPA and GAMSAT results are not included in the formula after interview.</p> <p>Offers are made in November with a small number of subsequent offers in December and January (if required). Offers are made for a specific status, campus and year only. Offers to UOW GM may not be deferred.</p> <p>Candidates who do not respond to their official Letter of Offer by the required due date as specified by University will have it rescinded, and the offer may be allocated to the next eligible applicant in a subsequent offer round at the discretion of the University.</p>

	<p>Offers to successful candidates completing their degree in 2019 will be conditional to their maintenance of the minimum required GPA. Evidence of completion must be produced for the offer to be ratified.</p> <p>Qualifying degrees must be completed by 31st December 2019, unless otherwise approved by the Admissions Executive.</p>
International Applicants	<p>International application processes are slightly different and international applications are assessed on a rolling basis from January 2019. International applicants should apply directly to GM.</p> <p>Please check the UOW GM website for further information regarding International applications at http://smah.uow.edu.au/medicine/future/md/index.html</p>
Open Days and Information Sessions	<p>An information evening will be held at Wollongong campus on 13th May 2019. Students considering UOW GM will have the opportunity to meet current students and academic staff and to ask questions regarding all aspects of the program offered. Details of the evening will be posted on the UOW GM website. Applicants who are unable to attend the information evening will have access to the presentations electronically.</p> <p>Applicants are strongly urged to check the UOW website for any changes or updates to any information provided on this form.</p>

Appendix A: Institutions Participating in ARTS (Automated Results Transfer System)

You do NOT need to provide academic transcripts for studies undertaken at the following institutions:

AUSTRALIAN CAPITAL TERRITORY

Australian National University	Canberra CAE	University of Canberra
Australian Catholic University	Canberra Institute of the Arts	

NEW SOUTH WALES

Australian Catholic University	University of Wollongong	University of New South Wales
Sydney College of the Arts	Western Sydney University (University of Western Sydney)	Charles Sturt University
University of New England	New South Wales Institute of Technology	Macquarie University
University of Newcastle	Southern Cross University	University of Sydney
University of Technology, Sydney	CQ University
