

MEMORANDUM

Date: March 1, 2017

To: Scripps Proton Therapy Center Staff and Physicians

From: Timothy J. Collins, Corporate Vice President, Scripps Health

Re: California Proton Therapy Center

Today, we were informed by California Proton Treatment Center (CPTC) that it has filed for Chapter 11 bankruptcy protection. Through this action, CPTC will reorganize its debt structure and has secured a bridge loan to fund the facility's operations.

CPTC has asked Scripps to continue providing medical services at the center, per our contractual agreement. Our patients will continue to have access to this highly advanced radiation therapy as they have since the facility opened in 2014. Clinical operations will continue as usual without disruption.

Thank you for your continued commitment to providing outstanding care to our patients every day. Please see me or your manager if you have any questions.
