

Housing Options

Searching for a home can be a daunting process. To assist students with avoiding the downfalls of apartment hunting, the Marian University College of Osteopathic Medicine students were surveyed to find out where they live and how they rate their environment. The survey shares location, rent, size, drive time, and living conditions. All information provided is based on student responses. For the latest information please contact the apartment of interest. Marian University does not endorse any of the off campus housing options provided.

We hope that you find this information helpful in your search for a home that is affordable and suitable for your needs.
