

# HIRING: RESEARCH DATA INTERNS

*Are you seeking a career in medicine? Gain valuable experience on the OU Health Sciences Center campus with the Stephenson Cancer Center.*

Our Clinical Trials Office is currently offering several paid Research Data Intern positions. Research Data Interns will have the opportunity to assist with oncologic research processes and learn more about the cutting-edge treatments on the horizon in oncology.

Qualified individuals will:

- > Have a bachelor's degree in science or pre-medicine coursework
- > Be willing to commit a minimum of one year's service at 40 hours per week

The internship experience will include:

- > Research data extraction and entry
- > Introduction to the regulatory components of research studies
- > Opportunities to shadow/observe world-renowned oncologists in their practice
- > Construction and completion of an investigator-initiated research project

Interested individuals should send their resumes and/or questions to the Clinical Trials Office Director, Ingrid Block, at [Ingrid-Block@ouhsc.edu](mailto:Ingrid-Block@ouhsc.edu).

*If you would like to contact our 2016-2017 Research Data Intern (who is starting the OU College of Medicine in August 2017) for more information regarding this opportunity, please email [Austin-McGinnis@ouhsc.edu](mailto:Austin-McGinnis@ouhsc.edu).*
